All members being present. Their being no communications or business come before the Board the meeting was duly adjourned.

Clerk.

Chairman

Castle Dale, Utah. February 2nd 1920.

The Board of County Commissioners of Emery County, Utah, met on this the above date in regular session, All members being present and the following business was transacted. Minutes of January 5th and January 20th 1920, were approved by the Board and signed by the chairman.

PETITION FOR CITY OF THE THIRD CLASS

A petition, purporting to be signed by more than One hundred of the real property tax payers and qualified electors of the town of Orangeville, County of Emery, and State of Utah, asking to have certain territory as described in said petition incorporated into a city of the third class, was presented at this time. An accurate plat of said proposed city and an affidavit showing the number of inhabitants of said proposed city was also attached thereto.

After being carefully examined by the County Attorney and found to comply with the law, Upon proper motion the petition was granted. It was ordered that an election be called to be held on the 26th day of March 1920, at Orangeville, Utah, for the purpose of voting upon the proposition as to whether the said territory shall be incorporated into a city of the third class and to elect officers for same. The Clerk was instructed to give notice of said election by posting notices within the limits of the proposed city for a period of four weeks preceding the election. All according to law.

BOND APPROVED

The following were appointed Health Officers and Registrars of Vital Statistics in and for the respective precincts set opposite their names.

Mrs. Roy Larsen, Molen precinct, In place of Frank Beach resigned.

Joseph H. Jewkes, Health officer, Orangeville precinct, In place of Earl Snow resigned.

Ira A. Day, Elmo precinct.

DEPENDENT MOTHERS FUND

Hazel Blackham was on proper motion granted an allowance of \$10.00 per month from the Dependent Mothers Fund of the County and the County Clerk instructed to draw his warrant for same.

POOR FUND

Upon proper motion Joseph Burnett of Orangeville, Utah, was granted an appropriation of \$25.00 from the Poor fund of the County for burial expense of Mrs. W.G. Potter.

An appropriation of \$10.00 was granted to John Marshall, and Joseph Nielson of Huntington.

TRUCKS

A communication, from Ira R. Browning, State Road Engineer, was read, stating that the number of Army Trucks assigned by the Bureau of Public Roads to the State Road Commission was somewhat in excess of their anticipated requirements for construction of roads during the coming season, and that if we so desired, a part of the surplus may be made available for use in our County for the maintenance of our Federal Post Roads. The matter was discussed at length and it appearing to the Board that the use of trucks for the transportation of material and for the shaleing and dragging of roads would mean a great saving in the maintenance of roads.

Upon proper motion the Road Commissioner was instructed to get four of these trucks, if possible, for the use as above stated.

COMMUNICATION

A communication, from Mary A. Killpack for her father Jas. W. Bradley, was read stating that he was desirous of having his son, who is in the mental hospital at Napa, California, transferred to the Mental Hospital at Provo, Utah, if it were possible, and wanted to know if the Commissioners could assist in having him transferred.

After the matter was discussed the Clerk was instructed to take the matter up with the Superintendent of the Mental hospital at Provo, and ascertain if it were possible to make the transfer.

TO SURVEY COUNTY LINE.

A communication, from the County Clerk of Wayne County, in answer to our communication of December 10th 1919, was read, stating that the Board of County Commissioners of Wayne County were not in a position, on account of insufficient funds, to cooperate with us in surveying and establishing the line between the two Counties at the present time.

The matter of the necessity of having the line established at once was discussed. It having been brought to the attention of the board that we were losing the assessment on a number of Transitory stock now grazing in this vicinity each year By our Assessor and Deputies not knowing the exact location of the line between the two Counties. Commissioner Gillispie favored the establishing of the line, out thought that we ought to wait until the coming fall to survey the line when Wayne County would probably would be in a position to cooperate with us and our funds

would be in a better shape to take care of the expense of surveying the said line. Commissioner Allred made a motion that we proceed at once to survey the said line and that the Clerk advise the Wayne County Officials of this action and ask them to advise us to what extent they are able and will cooperate with us in the expense of the survey. Motion was seconded by Commissioner Leonard put to a vote and carried. Commissioners Allred and Leonard voting for the motion and Gillispie voting against.

COMMITTEE

A committee consisting of D.L. Peacock, Bert Ryan, George L. Taylor and A.E. Stilsen, all of Orangeville and Ed. Crawford of Castle Dale, met with the Board of County Commissioners at this time, and stated that the Influenza was increasing very rapidly in the towns of Castle Dale, and Orangeville and having but the one Doctor for the two Towns, therefore there was great need for additional Medical Assistance and asked the consent or approval of the Board of County Commissioners in requesting the State Board of Medical Examiners to permit W.E. Henzie of Castle Dale to practice medicine during the time the influenza might remain in its present form, or to ask that another Doctor might be sent down to assist us.

The matter was considered and the Board favored the Committee's request, and advised them to the effect that they favored the request to the State Board of Medical Examiners to permit Henzie to practice or assist us during the Influenza Epidemic, or that if the State Board could not permit Henzie to practice, then to send another Physician down here to assist us.

That the Board of County Commissioners did not authorize the above named committee to send any telegram to any State Official or Board and signing the name of the Board of County Commissioners of Emery County thereto, and that the Board protests the action of said Committee in so doing.

That no authority was given this Committee to use the name of the Board of County Commissioners in the manner it was used.

That the only action taken by the Board in this matter was to favor the request to the Stage Board of Medical Examiners for assistance, and was not intended as a direct request from the Board of County Commissioners of Emery County, to the State Board to permit Henzie to practice medicine.

CLAIMS NOT ALLOWED

The claim of G.A. Johnson amounting to \$5.00 for removing dead animal from the Town of Huntington was not allowed for the reason that it wasn't a proper charge against the County.

The claim of P.H. Riley amounting to \$45.80 for services as constable was held for investigation.

CLAIMS ALLOWED

On proper motion the following list of claims against, Emery County, were audited, approved for payment and the County Auditor instructed to draw his Warrants for same.

Clerk

Chairman

Castle Dale, Utah, February 3rd 1920.

The Board of County Commissioners of Emery County, Utah, met on this the above date as a board of Equalization pursuant to the following resolution, .

Salt Lake City, Utah. December 23rd 1919.

Honorable Board of County Commissioners,
Castle Dale, Utah.

Gentlemen;-

"Be it resolved that the Board of County Commissioners of Emery County, be and they are hereby reconvened as a County Board of Equalization on February 3rd 1920, for the purpose of hearing objections to the following additional assessments;

Neal McMillan,

Electric Power & Milling Company,

Also to make abatements of taxes of indigent poor which were overlooked at the regular session of the County Board of Equalization."

Very Truly,

STATE BOARD OF EQUALIZATION AND ASSESSMENT

Wm Bailey

Secretary.

George L. Taylor, representing the Electric Power & Milling Company, met with the Board at this time and stated that the Company thought the additional assessment of \$9,950.00 placed upon the Plant and Electric lines of the said Company was too high and asked that they be granted a reduction. After the matter was investigated it was found that the Dynamo had been originally assessed with the mill property and had therefore been doubly assessed. Upon proper motion a reduction of \$2,950.00 was made on the machinery, leaving the \$7,000.00 to stand as an assessment on the lines of the said Company, and the Clerk was instructed to make the change on the 1919 Assessment Rolls of the County according to the above action.

Neal McMillin met with the Board and protested the raise in the number of cattle assessed to him in this County as evidenced in Book B. Page 111 Line 23 stating that he drove into and grazed along the line between Emery and Wayne Counties, 2700 head of Range cattle and which he gave in an assessment of 1700 head to Emery County and 1000 head to Wayne County which was all the cattle he grazed in the two Counties. That the cattle assessed in book A Page 111 Line 14 were owned and assessed to his son Kelvin B. McMillen in 1917 and the taxes were paid for that year, that in the fall of 1917 he sold all the cattle he owned in Emery Co. and went in the Army and that his son has not owned or grazed any stock in Emery County since the year 1917. Upon proper motion the assessment in Book B. page 111 Line 23 was reduced to show and assessment of 1700 range Cattle and the assessment in Book A. Page 111 Line 14 was declared erroneous.

On proper motion the following were granted an abatement in the amounts set opposite their names, as follows;-

That the Clerk is authorized and instructed to draw his Warrants in favor of the above named persons in the amounts set opposite their respective names in all cases where the 1919 taxes have been paid on the property refereed to.

ROADS

A Delegation from Orangeville, consisting of the following, John Oliphant, George L. Taylor, A.E. Stilsen and Herbert Moffitt met with the hoard at this time stating that the Mail route leading through Orangeville town and South to the intersecting point of the State Road needed some grading and that since the poll tax law had been repealed taking away the source of revenue by which this road had been maintained they were unable to keep up this road and therefore asked for some assistance from the County.

Upon proper motion an appropriation of \$400.00 was made to be expended on the road from the intersecting point south of the town of Orangeville North and that it be expended under the direction of the County Road Commissioner where most needed.

Upon proper motion the County Attorney and County Assessor were authorized and instructed to go to Salt Lake City, for the purpose of meeting with the Officials of the Utah Fuel Company in connection with the case of Utah Fuel Company vs.- Emery County now pending in the Federal Court and, if possible, to arrive at some basis of settlement.

ADDITIONAL ASSESSMENT

John Taylor of Orangeville, representing the Electric power & Milling Company met with the Board at this time stating that there seemed to be some misunderstanding with reference to the additional assessment heretofore placed on their Plan &. lines, they believing that the valuation arrived at between the Board and George Taylor at the last regular Equalization meeting included both the original and the additional assessment. But upon learning that the valuation as fixed by the Board was only that of the additional assessment they felt that the amount was excessive.

After the matter was considered at length, it was found that the valuation was somewhat excessive and that a portion of the Plant had been doubly assessed therefore upon proper motion a reduction of \$2,750.00 was granted and the Clerk was instructed to make the necessary changes upon the 1919 Assessment Rolls.

REPORT OF INQUEST

Report of Leo Kenney, of the proceedings in the matter of the inquest over the body of K. Okuji, who was killed in a mine accident at Mohrland was submitted and on proper motion approved.

and have agreed to expend all money and do everything necessary to put said land in cultivation, and to pay taxes thereon, provided a satisfactory adjustment of the past taxes against said land can be made with the County of Emery; and, Whereas, by reason of the conditions affecting said District and the land therein, is a drag upon all of the taxing bodies in which it is located, and a liability rather than an asset; and, Whereas, to reclaim said land and improve it and make it productive will require the expenditure of thousands of dollars on the part of said Thompson and Myrup; and whereas it is to the best interest of said taxing bodies as well as to the best interests of all the creditors of said District that said District be put in good condition and that said land made worth paying taxes thereon; Now, Therefore, in order to induce said Thompson and Myrup to reclaim said land and to rehabilitate said Irrigation District and to pay the taxes thereon, be it resolved that the County of Emery sell and convey to said Thompson and Myrup so much of the above described land as has been

deeded to the County for an amount fixed by taking one-twentieth (1/20) of the amount, exclusive of interest and costs, for which said land was offered at public sale after the same was deeded to the County in accordance with the statute in such case made and provided, on the express condition that all taxes hereafter levied against said land shall be paid from time to time as the same matures, provided that the payment of said taxes for the years 1921 to 1926 inclusive shall be conclusive evidence that this condition has been complied with; and the auditor of Emery County is directed, on receipt of the amount hereinbefore fixed, to make and deliver to said Myrup and Thompson the necessary deed or deeds authorized by this resolution, but shall insert in each of said deeds the following stipulation. It is expressly understood and agreed between said Emery County and said Thompson and Myrup that this deed is made upon the condition that the taxes for the years 1921 to 1926 inclusive shall be paid in due course as the same become due and collectable or this conveyance shall be null and void and the land conveyed hereby shall revert to the County of Emery; but the payment of said taxes shall make this deed completely effective and the conveyance evidenced hereby absolute. and

Be it further resolved that on payment of the taxes for the year 1920 levied against so much of said land as may not have been deeded to the county and the payment of one-twentieth of the prior taxes, now charged against said land (exclusive of interest and costs), said one-twentieth to be payable in cash, warrants and bond coupons in the same, proportion as that in which the original taxes might have been paid, the remainder of said taxes shall be remitted and any tax certificate or certificates issued to Emery County in connection with said tracts shall be cancelled; provided that if the taxes levied against said last described tracts for the years 1921, to 1925 inclusive shall not be paid from time to time as the same mature, the remitted and cancellation hereby authorized shall be revoked and said lands shall be and become liable for the taxes herein directed to be remitted; and, Be it resolved that any other owner of land in the Green River Irrigation District who desires to purchase from Emery County and land deeded to said County or to settle his delinquent taxes in connection with tracts in said District not so sold to said County, may and it is hereby ordered that he be permitted to purchase his land and settle his delinquent taxes on the same terms extended to said Thompson and Myrup; and the County Treasurer and County Auditor are authorized and directed to take any and all steps required to carry this resolution into effect.

Be it resolved that whereas the County Treasurer of Emery County is under the impression that he should act only on the order of the Board of County Commissioners of the County in accepting in payment of construction fund taxes or General fund taxes levied against the lands in the Green River Irrigation District, warrants of either class, instead of requiring general fund warrants for general fund taxes and construction fund warrants for construction fund taxes, and whereas it has been paid to appear to the County Board that the Directors of said District have authorized the acceptance of either class of warrants in settlement of either class taxes; now therefore be it resolved that so far as authority may be required from the Board of County Commissioners, the County Treasurer is authorized and directed to accept in payment of either class of said taxes either class of said warrants.

This completing the business of the Board at the regular meeting, upon proper motion the meeting was duly adjourned.

Clerk.

Chairman.

Castle Dale, Utah, October 4th 1920.

The Board of County Commissioners in and for Emery County met on this, the above date as a Board of Equalization as per the adjournment from August 16th, 1920. The following business was transacted.

A representative of the Bonneville Lumber Company of Green River, Utah, met with the Board and protested the additional assessment placed upon the merchandise and trade fixtures, stating that the report submitted by them to the State Board of Equalization was their inventory taken December 1st, 1919, and did not represent their stock as should have been January 1st, 1920; that the true amount of the inventory on January 1st, 1920 was \$5490.00 inclusive of merchandise and trade fixtures. Upon proper motion the assessment was fixed to remain as appears in Book "A", Page 6, Line 25.

B.J. Peacock of Emery, Utah, met with the Board relative to the additional assessment placed upon the merchandise and trade fixtures of B.J. Peacock & Son, stating that they were now assessed for more than they had reported to the State Board of Equalization and asked that the additional assessment be taken off and that their assessment stand as they were originally assessed. Upon examination of the record, it was found that a mistake had been made and that the additional assessment was erroneous. Upon proper motion the additional assessment was ordered taken off.

D. A. Lowry appeared before the Board and protested the raise placed upon the Eagle Roller Mills. After a further examination of the report submitted by the State Board of Equalization, it appeared that the additional assessment should remain as fixed.

C.E. Larsen representing the Consolidated Wagon & Machine Company of Castle Dale, Utah, met with the Board and asked if they had made any reductions on the assessment on obsolete goods carried by the Retail Houses throughout the County, and he was advised that they had not. Mr. Larsen asked that a reduction be made on the assessment of these goods carried by the Consolidated Wagon & Machine Company. He was advised that if a proper showing was made to the Board of what goods he had on hand, which they termed obsolete, the Board would be in a position to and would take some action.

This completing the business of the Board of Equalization, upon proper motion the meeting was duly adjourned.

Clerk.

Chairman.

COAL & WOOD

Upon proper motion the Clerk was authorized and instructed to advertise for bids for the furnishing of 10 tons of coal and 2 cords of dry cedar wood for the Court House.

Ira R. Browning, representing the Kelly & Ivers interests, met with the Board relative to the taxes assessed against their property or the property known as the Horse Canyon Coal property for the year 1916 and subsequent, and which has not been redeemed. The property having been assessed at the Government appraised value for that year, which was excessive, they felt that they shouldn't be required to pay the excessive tax when other property of the same value was assessed for a much less amount. He asked that some basis of compromise be agreed upon as they were willing to pay a reasonable amount of taxes. Upon proper motion the matter was held over until the next regular meeting.

REFUND OF TAXES.

Annie E. Rassmussen of Castle Dale, and Mrs. Fred Fail of Orangeville, was granted a refund of \$10.00 each on their taxes for the year 1920, their names having been overlooked on the list of names worthy of abatements.

Clerk.

Chairman.

Castle Dale, Utah, December 18th 1920

Pursuant to the following order, the Board of County Commissioners met in special session. Commissioners Isaac Allred and D. Heber Leonard being the members present.

Castle Dale, Utah. December 8th 1920.

It is Ordered that a special meeting of the Board of County Commissioners of Emery County, be held on Saturday December 18th 1920, for the purpose of considering the matter of building a bridge over the San Rafael River, and for the, consideration of ways and means of paying the balance of Emery Counties position of the Price to Castle Dale road project. That the Clerk is hereby authorized and instructed to notify the other members of the Board of this meeting.

Isaac Allred,
Chairman.

George M. Miller, President of the Price Chamber of Commerce, C.E. Larsen, President of the Emery County Commercial Club and a number of other citizens appeared before the Commissioners in behalf of the bridge over the San Rafael river. Mr. Miller stated that he had been advised that a number of Oil Rigs would be snipped to the San Rafael District within the near future, that if the bridge was not completed within a very short time there was a possibility of the Rigs being unloaded and taken in from other points. That the Chamber of Commerce of Price and Carbon County would appropriate \$500.00 each toward the construction of this bridge and that they were going to send a delegation to meet with the State Road Commission and ask for the old abandoned bridges over the Drunkards Mash and the Miller Creek Wash. That if Emery County could get the old Cedar Creek bridge and appropriate \$1,000.00 and that some assistance from the leasers in that district could be gotten, the bridge could be built.

C.E. Larsen, spoke in favor of such a proposition and pledged the support of the Emery County Commercial Club.

Upon proper motion \$500.00 was appropriated from the County Road Fund for the construction of this bridge and E.O. Anderson was appointed to take charge of the work.

Being advised by the State Road Commission of the amount of Emery Counties portion of the Federal Aid Project from Price to Castle Dale, and it appearing from the records in the County Auditor's office that there wasn't sufficient funds available at the present time in the State Road Fund to pay our portion of the said project. Therefore be it resolved by the Board of County Commissioners, that the Chairman of the Board of County Commissioners and the County Auditor, be and they are hereby authorized and instructed to negotiate for a loan of \$10,000.00 for the purpose of paying off the deficit.

This completing the business of the Board at this time upon proper motion the meeting was duly adjourned.

Clerk

Chairman.

The State Road agent was upon proper motion ask to grade and repair the street in front of the Killpack home.

RESOLUTION

It appearing to the Board that the Ledger in the County Auditor's office shows a balance due the County from the Green River Irrigation District, in the amount of \$1,419.03. That this amount has accrued from claims against the said District for Assessing and Collecting. That the Green River Irrigation District is now defunct and unable to pay off any obligations, and further that but very few taxes have been collected during the last five years with which to meet their obligations. That it now appears that the County will not realize any money from this account as the greater part of the Irrigation taxes, which have been assessed, have been cancelled in order to give another Company a chance to improve the land in the said District. Therefore upon proper motion the above account is hereby-declared to be an uncollectible claim due the County and the County Auditor instructed to balance and close the account.

CHANGE OF OFFICES.

Lewis W. Peterson, County Assessor appeared before the Board and as that he be permitted to exchange office rooms with the County Sheriff, that the work of the County Assessor was so closely connected with the offices of Co. Recorder and the other offices and that under the present conditions a great amount of time was spent in running up and down the stairs in looking up the records. It appearing to the Board that this change should be made, Therefore upon proper motion the Office room now occupied by the Sheriff is ordered taken over by the Assessor and used as the Assessors Office and that the Office now occupied by the Assessor be used as the Sheriff's Office.

They were advised that we had no such place but that we would have to see that he was cared for, and upon proper motion Commissioner Hitchcock was instructed to investigate the matter and see if it were not possible to find someone who would take care of him and receive a reasonable compensation from the County.  Castle Dale, Utah. January 4th 1921.

Whereas, the Commissioners of Emery County have been approached by representatives of the Price Commercial Club for a statement of road conditions into the San Rafael Swell.

We put ourselves on record as follows, We believe the best route at the present time for hauling heavy machinery into the swell, is by way of Huntington via Buckhorn route and have made an appropriation of \$1,000.00 toward its construction. We have also appropriated \$150.00 toward the construction of a road from Green River into the Swell, but we are unable to make any recommendation as to its condition at the present time but without knowledge of the general character of the country, would not recommend traveling this road without investigation by shippers or representatives.

San Rafael Bridge.

Claims were represented by E. O. Anderson, who was heretofore placed in charge of the construction work of the San Rafael Bridge, in the amount of \$1,500.00.

The County having appropriated \$7,00.00 and a check for \$250.00 was received from the Price Chamber of Commerce to apply on their appropriation, making a total of \$950.00 available at this time, therefore, upon proper motion Mr. Anderson was instructed to reduce his claims \$550.00 on a pro rata basis in order to come within the amount appropriated.

Upon proper motion the assessment in the 1920 Assessment Roll in Book B, Page 41, Line 20, was ordered reduced \$200.00 on the valuation of Real Estate, and the County Clerk was authorized and instructed to make this change upon the Assessment Roll.

Mr. W. G. Peacock, Jr. appeared in behalf of G. M. Sullivan of Salt Lake City, Utah, and stated that the County owned the following described Real Estate:

The South half of Lot 14, Section 4, Township 21, Range 16, containing in all 20 acres:

POOR FUND

Upon proper motion the allowance heretofore granted to Levi Hunt was raised to \$12.00 per month.

SALARY OF CROPS & PESTS INSPECTOR

The salary of the County Crops & Pests Inspector is hereby, Upon proper motion duly seconded and carried, reduced to \$100.00 per month, same to take effect April 1st 1921.

QUIT CLAIM DEED

Whereas, it appears that there has been a mistake made in describing a certain tract of land, in an Auditors Tax Deed issued in 1915, said deed being entered as entry No. 30661 in the County Records Office, wherein certain lands owned by Raymond J. Rutt was erroneously described and included in the Auditors Tax Deed, which should not of been included therein. Therefore upon proper motion it is ordered that the Clerk issue a Quit Claim Deed to Raymond J. Rutt, to the following described land, to wit;- E½ of the W½ of the NW¼ ft of the SE¼, Section 16 Township 21 South of Range 16 East, S.L.M.

RESOLUTION

That, whereas in regular meeting of the Board of County Commissioners, the matter of redemption of certain tracts of real estate which was been sold to Emery County for the 1916, taxes and which has not been redeemed, and

Whereas, there is a probability of the owners coming in and desiring to redeem same even after the deeds are issued, which may be done under Section 6056 of the Compiled Laws of Utah, 1917, by paying all taxes, interest and costs assessed against said lands.

Now, therefore be it resolved that the Clerk of Emery County be authorized and is hereby authorized to issue quit claim deeds to said parties applying for the redemption of said land sold to Emery County, for the 1916, taxes, and which has not been redeemed, upon their paying all taxes, interest and costs accrued against said lands to date.

AUDITOR'S TAX DEEDS.

On proper motion the County Auditor was instructed to issue Auditor's Tax deeds to Emery County on all property sold to Emery County, for 1916 taxes, and which has not been redeemed, and to advertise the same for sale and to sell said land or offer for sale during the month of May 1921, as provided by law.

FARM AGENT

Communication from the Utah Agricultural College, and from Carbon County were read by the Clerk, in which they ask that Emery County cooperate with Carbon County in the matter of a Farm Agent for the two counties. The college would pay the entire salary of the Agent and that the two counties would pay an equal share of his expense in the discharge of his duties. The headquarters of the Agent to be at Price, Utah.

The matter was taken up with the President of the Farm Bureau, O.W. Sitterud, who seem to think that the farmers of the County could be better taken care of by the County Crops & Pests Inspector with his headquarters in Castle Dale, than to cooperate with

Carbon County on a Farm Agent with his headquarters at Price, and only receive one half of his time in the County.

Upon proper motion the Clerk was authorized. and instructed to notify the College and Carbon County, that Emery County would not cooperate in the matter of a Farm Agent for the two counties.

COMMUNICATIONS

A communication from E.S. Borquist, District Engineer, to the effect that hereafter and until further notice, team work on State Roads would be rated at \$6.00 per day and single hands at \$3.00 per day, was read by the Clerk and ordered filed.

A communication from County Physician Dr. T.C. Hill and inclosing a petition signed by a number of citizens using water from the Cleveland Canal and addressed to the Emery County Board of Health, in which they ask that sheep be prohibited from watering on said ditch, was read by the Clerk and the matter was turned over to the County Attorney.

Upon proper motion the following claims were allowed, approved for payment and the County Auditor, instructed to draw his warrant on the proper fund in payment thereof.

SALE OF LAND

W.G. Peacock Jr. appeared before the Board for Grace Mooney of Salt Lake City, Utah, and offered the sum of \$2.00 per acre for the following described land, located near Green River, Utah, to wit; -N½ of the N½ of Lot 17 section 4 also SE¼ of Lot 15 Sec.4 Tp.21 South of Range 16 East, also the S½ of the SE¼: of the SE¼ Section 30 Tp.20 South of Range 16 East, S.L.M. said property having been sold to Emery County for the _____ taxes and not redeemed and an Auditors Tax deed having been duly issued to Emery County for same. Therefore upon proper motion the bid of \$2.00 per acre as aforesaid is hereby accepted and the land is sold to Grace Mooney, and the County Auditor is hereby authorized and instructed to issue a deed to the said Grace Mooney, according to law.

SALE OF LAND TO THOMPSON & MYRUP

The matter of the sale of land by Emery County to Thompson & Myrup under date of October 4th 1920, was brought up at this time. The Board having heretofore made a personal investigation of the lands so sold and met with the people of Green River who expressed themselves as favoring the action taken by the Board with reference to said sale of land and who felt that the action taken was the best for all parties concerned. Therefore upon proper motion it is ordered that the Board take no further action with regards to modifying the order originally made by the Board under date of October 4th 1920, but that it remain as fixed.

COUNTY CROPS & PESTS INSPECTOR

Whereas, the State Legislature, which passed the law creating the Office of County Crops & Pests Inspector failed to make a provision wherein County Commissioners could make a levy on the taxable property of the counties, to take care of the Salary and expense of the Inspector doing this work, and, whereas, it has been necessary the past year, to pay the salary and expense of the Inspector from the County General Fund and which under the present law we are unable to levy to exceed 2 mills for General purposes. The revenue derived there from at this rate is insufficient to take care of the general expenses at the present time.

It is therefore, upon proper motion ordered that the crops & pests work in this County, be discontinued, same to take effect April 30th 1921, and that notice of this action be given to C.E. Cooley, the present Inspector.

FARM AGENT

An agreement between the County Commissioners and County Farm Bureaus of Carbon and Emery Counties, and the Extension Service of the Agricultural College of Utah, and the United States Department of Agriculture, relative to Extension work in Carbon and Emery Counties, was upon proper motion approved and signed by the Board, wherein the Extension service shall pay the salary of the Agent. The agent is to spend an equal amount of time in each county and each county to bear one half of the expense necessary in the discharge of his duties. The headquarters of the agent to be at Castle Dale, and Emery County is, to provide and equip an office for the Agent.

RESOLUTION

Whereas, it is probable that owners of real estate which has heretofore been sold to Emery County for the 1916 taxes and not redeemed and Auditors tax deeds have been issued.

Therefore be it resolved that the Clerk of Emery County be authorized to issue quit claim deeds to owners so redeeming said lands, upon their paying all taxes, interest and costs accrued to date, as provided in Section 6056 of the Compiled Laws of Utah, 1917.

REFUND OF TAXES

It appearing from the records that the following described real estate which was owned by the County, by reason of a tax deed, was sold in 1920, to B.J. Silliman of Green River, Utah, to wit;- West half of the South-west quarter, Section 16, Township 21 South of Range 16 East S.L.M.

Through some mistake, the County sold the same property and issued another deed to David A. West, which would not be effective, in view of the fact that the land was previously sold to Mr. Silliman.

Therefore upon proper motion, the Clerk is authorized and instructed to issue his warrant, payable to David A. West, in the amount of all taxes, costs and interest accrued to date on the above described property as a refund and according to a request filed by Mr. West.

TO REDEEM WITHOUT COST

It appearing from the records that the lands described as Lot 6 and SE $\frac{1}{4}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 6 Township 22 South of Range 7 East, was assessed for the year 1916, and there hasn't yet been a Final Certificate or Patent issued for said land, the land having been just recently been filed on by J.F. Larsen.

Therefore upon proper motion, it is hereby ordered that the assessment and sale be declared erroneous and that the lands be redeemed on the records without costs.

PAYMENT OF NOTE

It appearing that the note given by Emery County to the Desert National Bank, of Salt Lake City, Utah, for \$5,000.00 is now past due, therefore upon proper motion it is ordered that the Clerk issue his Warrant for the above amount together with the interest accrued thereon to-date in payment of this note.

CLAIMS HELD OVER

It is ordered, upon proper motion, that the following claims be held up for investigation.

United States Fuel Company, Road Work	\$112.00

Chairman.

Clerk.

Castle Dale, Utah, June 6th 1921.

The Board of County Commissioners of Emery County, Utah, met on this the above date in regular session, all members being present the following business was transacted.

Minutes of May 2nd and those of June 1st and 2nd were read by the Clerk and were approved and signed by the Chairman of the Board.

APPROPRIATION FOR ROAD.

A Committee consisting of Thomas Wells and others from Victor, met with the Board and ask for an appropriation to repair the road from Victor to the Austin Ranch road, stating that the road from the Austin Ranch to the Price Emery road was now in good condition and that they desired to connect up at that point, which would give them a direct outlet to Price.

Upon proper motion \$50.00 was appropriated for this road.

A committee from the west part of Castle Dale came before the Board and ask for an appropriation for the repair of the old Castle Dale-Orangeville road under the Bench stating that the road was hardly passable at the present time, but wouldn't take a great amount to put it in good condition and that in as much as the greater part of the coal and wood for the people of Castle Dale is hauled over this road they felt that the road should be put in good condition.

Upon proper motion the sum of \$100.00 was appropriated for the repair of this road, providing that the people interested work out a like amount.

RIGHT OF WAY FOR ROAD.

Wallace Grange of Huntington, came before the Board with reference to a right of way for the change which has been made in the Mohrland road for a distance at the point where the Mohrland road intersects the State Road North of Huntington, claiming that he and Carl Wilberg, former Co. Road Commissioner, had entered into an agreement wherein he(Grange) agreed to give the right-of-way if the County would fence it on both sides. That the fence had not been constructed as agreed and that he was here to find out what was going to be done about the matter.

Carl Wilberg was present and ask permission to say a few words regarding the matter, which was granted, Mr. Wilberg claimed that the agreement had been fully lived up to, that there was never an agreement entered into wherein he, acting for the County Commissioners, agreed to fence this particular piece of road.

In as much as there seems to be some misunderstanding with regards to the matter, it was decided, Upon proper motion, that they would investigate the matter further and take some action later.

FERRON CANYON ROAD

Joseph Hansen, Henry Thompson and John C. Lemon, representatives of the people of Ferron, came before the Board and ask for an additional appropriation to complete the Ferron Canyon road, that in their opinion \$250.00, with the people over there appropriating an equal amount would be sufficient to complete the road to where the people could get plenty of good timber.

Upon proper motion, the sum of \$250.00 was appropriated for the completion of this road, with the understanding that the people appropriate or donate the same amount.

SALE OF LAND

W.G. Peacock Jr. appeared before the Board, and stated that he was representing a party in Salt Lake City, Utah, and was authorized to bid the sum of \$2.00 per acre for the following described land which was sold to Emery County for taxes and not redeemed and an Auditors tax deed having been issued to Emery County for same.

GREEN RIVER-HANKSVILLE
ROAD

Whereas, The County Commissioners of Wayne County came to Emery County on two occasions to plead for co-operation in the construction of a road leading into Green River, and for the betterment of the present highway as far as it would be utilized on the proposed highway, and

Whereas, the said Wayne County Commissioners offered to constrict a good road to the point where it will be to the best advantage of both counties on the line separating the two counties as a meeting point, and:

Whereas, the Commonwealth Bank of Green River, thru their president, Mr. Hulse, has offered to redeem Emery County Notes bearing interest dated June first Nineteen Hundred Twenty-one, and falling due and payable on June first, Nineteen Hundred Twenty Two or one year from date of issue, in order to finance the project until funds will be available in Emery County, and;

Whereas, the need for the road is imperative and will result in actual benefit to Wayne and Emery counties by opening up a highway that will be passable the entire year and will greatly shorten the distance between Wayne county points and the railroad and will greatly stimulate trade relations between the two counties, therefore be it Resolved: that the Board of County Commissioners of Emery County do accept the offer of the Commonwealth Bank of Green River, and authorize and instruct the County Clerk to issue Notes in the total amount of Twenty-five hundred (\$2500.00) Dollars in denominations of five hundred dollars (\$500.00) each. Said notes to become due and payable June first 1922, one year from date, and to bear interest at the rate of six per cent per annum from date thereof until maturity, and be it further, resolved, that the funds derived from the loan of said money be expended entirely and exclusively upon the construction and betterment of the road leading from Green River to Wayne County and known as the "Hanksville Road" and no part shall be used for and other route or purpose.

CROPS AND PESTS INSPECTOR

Harrold R. Hagen, State Crops & Pests Inspector appeared before the Board in behalf of Mr. Cooley's salary and expense for the month of May 1921. Mr Hagen stated that he and The state Board of Agriculture requested Mr. Cooley to stay and continue the work as Inspector in the County until such time as he or some representative of the State Board of Agriculture could meet with the Board and get a definite understanding with respect to the further continuance of the work in the County. This he said he did after being; advised that the Board of County Commissioners had notified Mr. Cooley that they had discontinued the work in the County for the reason of insufficient funds. After the matter was discussed for some length of time the Board of County Commissioners acknowledged that then; had taken action a little too hasty, and probably should have given Mr. Cooley more notice. Under these conditions it was agreed to pay Mr. Cooley for 15 days time during the month of May 1921, which Mr. Hagen agreed to

accept as payment in full on account of Mr. Cooley's Salary and expense for the month of May 1921. Upon proper motion the Clerk was authorized to issue his Warrant for \$90.00, to Mr. C.E. Cooley as payment in full for services as County Crops & Pests Inspector for the period above stated and as agreed upon by the Board and Mr. Hagen.

Being advised by Mr. Cooley that he would accept the \$90.00, as part payment for his salary and expense for the month of May 1921, and that he would hold the County for \$90.00 in addition, which he expected them to pay before the claim was settled in full. The Commissioners, upon proper motion reconsidered their former action and ordered same declared null and void.

TO CONSIDER POOR & DEPENDENT MOTHER
ALLOWANCES

It appearing from the report of the County Auditor that we are appropriating more funds to the Poor and Dependent Mothers than we are getting and can assess for those purposes. It therefore appears that it will be necessary to cut down the allowances in order that the appropriations will come within the amount derived or that can be collected for those purpose. Upon proper motion the County Clerk is authorized and instructed to notify all parties now receiving allowances from the Poor and Dependent Mothers funds of the County, that they will receive no further allowances until the amounts are re-fixed by the Board. Also to appear in person at the next regular meeting of the Board and state their case, or show cause why they should receive further allowances.

APPROPRIATION FOR ROAD

C.E. Larsen, of Castle Dale, met with the Board in behalf of the Farmers of Upper Joe's Valley at the head of Cottonwood Creek, for financial assistance in the construction of a stretch of road from the present Ephraim-Orangeville road at the head of straight Canyon and running North along Lowry Creek toward the Ranches in Upper Joe's Valley. Among other things Mr. Larsen stated that at present or under present conditions it was almost impossible to get to and from the ranches during the high-water season and that their lives were endangered in having to cross the creek. That by the construction of a short stretch of road they wouldn't have to cross the streams in going to Upper Joe's Valley.

Upon proper motion an appropriation of \$75.00 was made to assist in the construction of this stretch of road, said amount to be expended under the direction of Ranger Anderson.

Upon proper the following list of claims were allowed, approved for payment and the County Auditor instructed to issue his warrant in payment thereof.

MAINTENANCE

On motion of Mr. Boyd Ivie of the Board of County Commissioners of Wayne County and seconded by Mr. E.E. Adams of the Board of County Commissioners of Emery County, the following resolution was adopted:

Whereas the County Commissioners of Emery and Wayne Counties can not legally pledge said counties to expend money for the maintenance of that part of the Fremont-Emery Road within Sevier County after such road is constructed; therefore, it is resolved that the said County Commissioners of said:

Counties sign the cooperative agreement for the survey and construction of the Fremont-Emery Road with the understanding that the last line of Article 2, reading Annual maintenance, \$1,000.00, all of Article 7, and the last sentence of Article 9, be eliminated insofar as maintaining the twenty-three miles of the road in Sevier County is concerned; that the Board of County Commissioners of Wayne County are willing to pledge said County to maintain the six miles of the Fremont-Emery Road lying within Wayne County, and that the Board of County Commissioners of the above mentioned counties are willing to lend their moral support and use their influence to secure funds for the maintenance of the twenty-three miles of the road within Sevier County, but can not lawfully pledge Emery and Wayne Counties to maintain this part of the road within Sevier County; that this resolution be made a matter of record in the County Clerk's Office of the respective Counties at the next meeting of the Board of County Commissioners of said Counties.

COMMUNICATIONS

Communication from Dr. F.R. King, regarding a claim that had been allowed by the Board for him for Professional services to an indigent at Green River was read. His claim was presented for \$35.00 and had been allowed by the Board for \$25.00. Upon proper motion the Board agreed to stand by their former action.

Application for a refund for money paid by David A. West was read by the Clerk. It appearing from the records that the lands described as W $\frac{1}{2}$ SW $\frac{1}{4}$ Sec.16, Tp. 21 S. Range 16 E. S.L.M. was sold to Emery County for the 1908 taxes and not redeemed and an Auditor's tax having been duly issued to Emery County. It appears also that the same tract was by an error placed back on the assessment rolls for the year 1913 in the name that it was sold under for the year 1908. The land was again sold for the 1913 taxes and not redeemed another Auditor's tax deed was issued to Emery County for thee same tract. B.J. Silliman purchased the land from the County Commissioners under the 1913 sale and a tax deed was issued to him Jan.17-1921, not knowing that there was a previous sale on the land. Later David A. West of Salt Lake City purchased the land from the County Commissioners under the 1908 sale and was given a deed, after which it was discovered that a deed had been issued to B.J. Silliman for the same land.

After the matter was discussed for some length of time. Upon proper motion it is ordered that the taxes including all costs amounting to \$173.04 be refunded to David A. West.

SALE OF COUNTY LAND.

S.A. Giles, of Green River met with the commissioners at this time relative to purchasing the County's interest or title to the lands in the Green River Irrigation District which have been deeded to Emery County, by the County Auditor. Mr. Giles offered the County Commissioners the sum of \$500.00 for their equity in said lands, and the matter was taken under advisement by the Commissioners. Mr. Giles advised the Commissioners that he was prepared to go ahead with the adjustment of the affairs of the District, but that it would be impossible for him to pay much for the tax titles to said land, for the reason that there was such an indebtedness standing against the said district, that by the time the greater portion of said indebtedness was paid, that it would more than equal the actual value of the land, and thereby resulting in a very poor investment to any one who tried to get the matter adjusted. Mr. Giles also advised the Commissioners that it would take him some time to handle the situation as it should be, but that he figured that he had sufficient backing to make the attempt to straighten the affairs of the District. Mr. Giles finally made the original offer of ~500.00 for the tax titles and an additional ~200.00 to take care of the expense of computing taxes, making deeds, etc.

Therefore on proper motion the offer of Mr. Giles was accepted, with the understanding that when the work of segregating the land into the different tracts and the office work completed, that an agreement, or resolution would be passed putting the agreement into full force and effect.

Chairman.

Attest:

Clerk

Castle Dale, Utah
September 4th 1923.

County Commissioners met on this the above date in regular session, Commissioners J.H. Otterstrom, and Peter Christensen, being present.

Minutes of August 6th 1923, were read by the Clerk, and on proper motion were duly approved.

Commissioner Otterstrom was again made temporary chairman of the Board.

Mrs. Horace Dunoan of Clawson, met with the Board relative to her father and state that she had been taking care of him for some time, and that her other brothers and sisters would not assist her in so doing, and wanted to know if some arrangements could be made whereby he could be sent to the Utah County Infirmary. After the matter had been considered the County Clerk was instructed to take the matter up with the Utah County Commissioners and ascertain what could be done in the matter.

TAXES.

Mrs. Mary Ann Gordon, met with the Board at this time, relative to her taxes for the year and also this year, and asked for an abatement of the same, stating that she had not received her abatement last year. After the matter was considered by the board, on proper motion it was decided that she be permitted to redeem last years taxes without costs, and that she be allowed an abatement this year of \$10.00.

O Sorenson, Jr. met with the County Commissioners at this time, relative to the taxes due on land assessed to Maud Ziegler, same being coal lands, and are assessed in Book C page 34 line 26-30. The Commissioners being advised that these lands in question had been patented to Maud Ziegler, and by her deeded to Charles Ziegler, and by him deeded to the United States Government in lieu of other lands which he at one time decided to take, but before doing so the laws regulating said exchange were amended. That subsequent there to the Government had re-deeded to Charles Ziegler said lands, which deed was recorded during the year 1919. Therefore after giving the matter due consideration, the Commissioners decided that said lands should be assessed from the year 1919, and that a fair valuation to be placed on said lands for each year since that time, would be the amount the said lands were assessed for by the State Board of Equalization for the year 1923.

DEPENDENT MOTHERS.

The application of Laura a Tuft, for assistance from the Dependent Mothers Fund of the County was granted in the amount of \$5.00 per month, and the County Auditor instructed to issue order on the said fund for the purchase of groceries, etc. at the Stores in the County to the extent of \$5.00 per month, until the further order of the Board.

CLERK TO ISSUE DEEDS.

The County Clerk brought to the attention of the Commissioners the matter of the issuing the county deeds to Overson, McFarlane, and Larsen, as ordered by the Commissioners in their meeting of April 2nd 1923, Minute Book C page 379, stating that through an error the Auditors tax deeds had never been issued to Emery County, until after the above mentioned deeds were issued, and that in order to make the chain of title regular, that it would be best to issue new deeds to take the place of those issued as above stated. Upon proper motion the Clerk was instructed to issue said correction deeds.

APPOINTMENTS.

The resignations of Mrs. William Hitchcock of Ferron, and Mrs. E.E. Adams, of Green River, as Registration Agents of their respective precincts, were on proper motion duly approved and accepted.

On proper motion Mrs. Edd Christensen of Ferron, was appointed Registration Agent of Ferron Precinct, and L.C. Maharry was appointed registration agent of the Green River Precinct.

RESIGNATION OF COMMISSIONER.

The resignation of E.E. Adams, County Commissioner, and Chairman of the Board of County Commissioners was presented to the Board at this time, and on proper motion was duly accepted.

STATE ROAD COMMISSION.

The County Clerk was instructed to write the State Road Commission relative to the requisitions for \$562.25 and \$2000.00, stating to them that in the future the County Commissioners would like to have all claims for material, etc, as well as for labor on state roads pass through and be approved by the Commissioners, so that they would know somewhere near where we stand on appropriations at all times.

FARM AGENT'S REPORT.

The matter of fire insurance for the Court House Buildings, and contents, was taken up at this time and after the matter had been considered by the Board, it was decided that we raise the amount of insurance of the buildings to \$6000.00, and on the Furniture and Fixtures at \$3000.00.

CEMENT WALKS

On proper motion Carl Wilberg was instructed to proceed with the construction of a cement front on the south side of the Court House, and a cement path from house to the South Gate. Said work to be done for same price as that on the East Side of Court House.

TRANSITORY DEMANDS.

Letter from Henry Ruggeri, County Attorney of Carbon County, relative to the demands of Carbon County stating that Carbon County would like to get these demands taken care of and that in the event that they were not taken care of that Carbon County would be under the necessity of instituting an action to recover what they claimed was due on said demands. That it appearing to the Commissioners, and after they have been advised that the Legislature of 1919 had made it the duty of the State board of Equalization to apportion the taxes among the counties presenting grazing certificates or demands on the said State Board for their portion of said taxes. That the county of Emery pursuant to said law, did remit the money collected here from transitory herds and forwarded to same together with our demands on other counties. That the State Board received grazing demands on some herds from the different counties in which said herds had grazed for a total of 12 to 15 months credit whereas but a total of 12 months credit should be demanded. That the said State Board realizing the difficult task of apportioning these taxes and not having sufficient information as to just what tax was due each county claiming same, made a request of the 1921 Legislature for a change in said law which was granted, and the duty of paying and apportioning said taxes derived from transitory herds was again placed in the hands of the County Commissioners of the different counties. That the Commissioners take the position that if the State board of Equalization could not justly apportion these taxes for the years of 191 and 1920 among the counties claiming said taxes with the information which said board had, that it would be also a difficult job for the Commissioners to undertake to do the same task now or at any time after the matter was referred back to the Counties. Further that the time on some of the grazing certificates, upon which the demands are made, and on which the Carbon county officials claim credit is more than should be claimed and there is a doubt as to time claimed in each certificate. That for the reason of the uncertainty in the demands of 1919 and 1920 that we refuse to pay same. That as to the demand of said County for year 1921 that the same will be investigated and if found that the same was submitted in the time and form prescribed by law the same will be paid for that part which is justly due on said demand. That the demand for the year 1922 is denied for the reason that the same was not made within the month of January 1923, as the state law requires.

CLAIMES ALLOWED.

On proper motion the following listed claims against Emery County, were approved for payment and the County Auditor instructed to draw his warrants therefore.

Attest:

Chairman

Clerk

Castle Dale, Utah

February 4th 1924

The County Commissioners of Emery County, State of Utah, met on this the above date in regular session and the following business transacted.

Minutes of January 7th 1924, were read by the Clerk and on proper motion the same were approved, and signed by the Chairman of the Board.

ROADS

Anthony Beach of Molen met with the Board relative to the water which has been flooding the road from Ferron to Molen, stating that the same had done considerable damage to the roads by making them practically impassable, and that it was his opinion that the ditch company was to blame for this condition. After the matter had been considered for some time it was decided that it be best to wait until Spring and then to make some necessary improvements along this road to take care of a like condition for another winter, and then to take the matter up with the Ditch Company and see that they took care of this water.

A Committee consisting of D. Heber Leonard, M.S. Black, William Green, Byron Howar, and Mr. Pritchett, the Druggist at Huntington, met with the Commissioners relative to the Huntington Canyon Road, stating that during that last year approximately \$10,000.00 had been spent in the construction of a part of this road, which said sum had been appropriated half by the Forest Reserve and the balance had been donated by citizens of Huntington, and near by towns. That they had again taken the matter up with the Forest Reserve Officials for the completion of said road on the same basis as last year, but that the Forest Reserve did not have sufficient funds to put eh road over this year, but that they would be in a position a little later to do so. That the people of Huntington had taken the matter up with the State Road Commission, and they were advised to see the County Commissioners and have the Commissioners make a request of the State Road Commissioner that the sum of \$7,500.00 be appropriated from the State Road funds to help in the completion of said road, there being about 10 miles yet to complete, and that the citizens of Huntington and vicinity would match the money thus appropriate. The Commissioners after considering the matter and being some what uncertain as to what the present condition of the funds for road purposes is, that before taking any definite action on the request that it would be best to have a complete statement of the road funds before so doing. Therefore on proper motion it is hereby ordered that the Clerk have a complete report of the present condition of the County Road fund as well as the State Road Fund by the time the next meeting of the Board is held.

ERRONEOUS ASSESSMENTS

Will Snow met with the Board relative to the assessment of his land being the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec.____ Township____, Range____ East, stating that the same had been assessed to and sold in the name of Hans Jensen, before either the final certificate or the patent had been issued, and that the said Hans Jensen had no title or right or interest in said land. Upon proper motion it is hereby ordered that the County Treasurer issue a Redemption Certificate without costs or taxes for said land, as it appears to be an erroneous assessment, as none of this land should be assessed prior to 1922, but that this land together with the balance of the homestead of the said Will Snow to be assessed from the year 1922 and on.

W.L. Black of Ferron, met with the Board relative to the assessment of his personal property assessed in Book B-2 Page 77 Line 20, as follows; 3 horses \$150.00; 25 head of Cattle \$562.00; 2 Cattle otherwise \$90.00; 2 Pigs \$20.00; Car \$300.00. Stating that this was a double assessment, as the same property had been assessed with other real estate. Upon proper motion said personal property assessment was declared to be a double assessment and the County Treasurer instructed to give Mr. Black the relief prayed for.

WILD HORSES AND BURROS

A committee consisting of J.B. Crawford, of Orangeville, Cliff Snow, of Ferron, and M.S. Black of Huntington, met with the Board relative to the wild horses and burros now using the range in the South-eastern part of the County, and requested that if the owners of this class of stuff insisted on turning them loose upon the public range, that they should pay taxes on the same as other stockmen of the County have to do. The Commissioners advised these gentlemen that the proposition was still being considered by them, and that some action would be taken relative to the matter, as soon as the County was in a condition to do so, but that the Board would instruct the Assessor to make a complete investigation of the matter of the owners of this class of property and have them assessed.

SALE OF REAL ESTATE

The Application of James H. Mays for the purchase of the County's title to the following described real estate, to with; W $\frac{1}{2}$ NE $\frac{1}{4}$; SE $\frac{1}{4}$ NE $\frac{1}{4}$; NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, Township 17 South, Range 7 East, S.L.M., which had been sold to Emery county for the 1917 taxes and not redeemed and a County Auditor's Tax Deed having been issued to Emery County for said land, and for which land the said James H. Mays offers the price of \$140.66, was taken up and considered by the Board, and the Commissioners being advised that said bill covers all the taxes, interest, and costs accrued to date on said land, and that it is hereby ordered that said application be and the same is hereby approved and said land is hereby sold to the said James H. Mays for said \$140.55, and that upon that payment of said sum of money, that the County Clerk is hereby instructed to issue a county deed for said land to the said James H Mays.

JUSTICE OF THE PEACE

Upon proper motion the petition of some of the residents of Ferron, asking for the appointment of J.H. Cook, as Justice of the Peace of Ferron Precinct, was held over pending the resignation of F.A. Killpack, the present Justice.

TRANSITORY TAX DEMANDS

The tax demands of Beaver County and Sevier County were presented to the Board at this time, and it appearing to the Board from the said demands that the same were not presented to them during the month of January as the Statutes provide, therefore as they were not presented and filed during January 1924, they do not comply with the law, and on proper motion the same are hereby denied.

The tax demands of Carbon County were taken up at this time, for the year 1923, and it appearing to the commissioners that the same were presented within the time fixed by law, and that they appear to comply with the Statutes, therefore on proper motion it is hereby ordered that the same be carefully checked by the County Assessor as to the Assessments and also as to the time they were in Emery County and then reported back to the Board for consideration.

It appearing to the Board that the business of attending to the matters of transitory taxes as to making the demands on other counties, checking the demands on Emery County by other counties, following the same up and making collections, securing proof as to the exact time herds come into and leave this county, and all matters connected therewith, is really a matter pertaining to the County Assessor's Office, and the County Commissioners feel that the responsibility of the proper attention to these matters should be placed on some one official in order that the County's interests will be properly taken care of, and that the demands made by this County will be followed up and collections made in case where the County is entitled to a portion of said taxes. Therefore it is hereby ordered, on proper motion that the County Assessor from now on shall attend to all matters pertaining to the Transitory tax matters herein set out.

ASSESSMENTS

Letter from O. Sorenson, Jr. of Castle Dale, relative to some land which is owned and has been assessed to J.L. Upp of Rockville, Indiana, was read and considered, and it appearing to the Board that the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 27 Township 22 South, Range 14 East, S.L.M. has been erroneously assessed to Mr. Upp, and that he has paid the taxes thereon since the year 1913, and that 40 acres of his land, to wit, the NE $\frac{1}{4}$ of SW $\frac{1}{4}$, escaped assessment for the year 1917. The Commissioners being advised that they would not have any legal right to repay Mr. Upp for any taxes which he had paid on the 40 acres erroneously assessed for a period of more than four years back of the present time. Therefore it is hereby ordered that the said NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ be assessed for the year or years it escaped assessment, and that Mr. Upp be repaid for the taxes he has paid on the 40 acres not owned by him for the four years past.

Castle Dale, Utah
April 22nd, 1924

The County Commissioners of Emery County State of Utah, met on this above date in a special session, Mr. Otterstrom and Christensen being the only members present.

STATE ROADS

Mr. Kerr from the State Engineer's Office met with the commissioners at this time, relative to the matter of Maintenance and Betterment work on State Roads in Emery County.

Mr. Kerr said it was the wish of the State Road Commission to adopt the petrol system for maintenance of all State Roads, where it is convenient to do so.

Therefore upon proper motion it was decided to divide the State Roads in Emery County, into the following districts, one district from a Green River to Cliff, and one and one from Cliff to Carbon County line, one from Carbon County line to Huntington, one from Huntington to Orangeville, one for Castle Dale to Ferron, and one from Ferron to Sevier

line, and State Road agent, Heber Frandsen is instructed to place a man on each district, to maintain, and be responsible for his district.

Mr. Kerr informed the Commissioners that it would be necessary for them to purchase enough of the Northwest corner of the block just south of Bryan's old store in Ferron, to allow for an easy curve, at radius of about 100 feet, before the Government would receive the project. Therefore upon proper motion Commissioners agree to purchase the necessary ground to allow for the said easy curve, and instruct the State Road agent to do the work necessary to make the curve, said work to be done from maintenance charge.

This completes the business of the Board of County Commissioners at this time, on proper motion meeting was duly adjourned.

After the matter had been considered by the Board, and it appearing to them that the proposition was rather indefinite in this that the Board had no information or idea as to the time the audit would require, that more information would be desired, therefore on proper motion the Clerk was instructed to write the above company that the Commissioners would like to know something relative to the time the audit would take before they took any further action on the matter.

TAX SUIT PIUTE COUNTY.

Letter from Gilbert R. Beebe, County Attorney of Piute County, and also letter from Governor, Attorney General, Auditor, Supt. Board of Education, Secretary of State, and Secretary of the State Board of Equalization, relative to the suit now pending in the Sixth Judicial District Court, Piute County, wherein Piute County is made a defendant, and the Union Central life Insurance Company is plaintiff, in which case the question is directly in issue whether the holder of a mortgage on real estate has a lien paramount to the lien of personal property taxes assessed against the over of the real estate. As this question is of vital importance to every County in the State, as the State Board of Equalization reports that eighty-five per cent of the real estate in Utah is under mortgage and we all know that if the line for personal property taxes is held to be inferior to mortgage lines, the State, the schools, the Counties, and the towns and Cities of the state will suffer great loss in revenue.

That as Piute County is one of the smallest counties in the State, and her finances limited, her County Attorney hesitates to assume the responsibility of handling the litigation alone, and as the Attorney General of the State of Utah, has already ruled that the mortgage liens are superior to tax lines, that it appears that it would be best to hire special counsel and make a test case of the one now filed, and that each County contribute an amount to assist in defraying the expenses of the suit.

That it appears to the Commissioners that this question is a very important one and one that should be settled as soon as possible in order that the State and County Officials may know just what attitude to take in making personal property assessments hereafter; that if each County has to defend similar suits which will undoubtedly be instituted by Companies holding mortgages on real estate in their respective counties, that the cost will be great until the matter is finally determined. That they would be subserving the interests of tax payers of the County by contributing to the expenses of the litigation in Piute County.

Therefore on proper motion the sum of \$50.00 is hereby appropriated from the General Fund of the County as a contribution to the expenses of making a test case above referred to, and the County Auditor is hereby instructed to draw his warrant in favor of Piute County for employing special counsel in said case.

SANPETE TAX DEMAND.

On proper motion the Grazing Demand of Sanpete County for their proportion of taxes collected on transitory herds assessed in Emery County for the year 1923, was allowed and the County Clerk instructed to check the same as to numbers assessed and amounts collected and to draw his warrant for the amount that Sanpete County is entitled to.

TRANSFER FUNDS.

On proper motion the County Treasurer is hereby authorized and directed to make the following transfers of County Funds.

\$2500.00 from General Fund to Salary Fund.
\$10,000.00 from County Road Fund to State Road Fund.

RIGHT OF WAY ROAD.

The matter of the right of way for road as well as ground for channel change, and which land belongs to J.B. Cox, was taken up at this time, and on proper motion an appropriation of \$50.00 was made for the payment of the land used for this purpose, and the County auditor instructed to and authorized to issue his warrant on the County Road fund for said amount.

ROAD AND BRIDGE BONDS.

The matter of a refunding of the \$35,000.00 road and bridge bonds by the County was taken up at this time, the County Attorney and County Treasurer having made the suggestion to the Board that it would be a great savings of Interest to the County, and would also materially assist the County in taking care of the present deficit the County is now carrying. West of NE cor. SE 1/4, thence W 113.5 rods, SE 85.95 rods E 50.5 rods, N 54.25 rods to beginning.

COUNTY DEED

There having been an Auditors Tax Deed heretofore issued on the following described property assessed in the name of the Cleveland School District, Lot 4 Block 9 Oviatts Sub and which now appears on the records in the name of Emery County,

Therefore on proper motion the Auditor is instructed to issue A County Deed to the Cleveland School District without cost, same being an erroneous sale.

RESOLUTION.

The matter of the assessment and sale of the following described land, to wit; the NE1/4 of the SW1/4 of Section 17, Township 21 South, Range, East, S.L.M. and owned by the Rochester Ranch company, was taken up for consideration at this time, and

Whereas it appears that the above described land was sold to Emery County for the 1920 taxes, and in the due course of procedure was deeded by auditor's tax Deed to Emery County during the year 1925, and offered for sale at the regular May Slae and sold to one Howard Petty, and a County deed issued to him, and

Whereas it appears that considerable of the real estate owned by the Rochester Ranch Company was sold to Emery County for the 1920 taxes, and that during the Month of January 1923, Mr. L.C. Moore one of the members of the said Rochester Ranch Company, and an officer thereof met with the County Commissioners of Emery County to consider a settlement of the taxes due at that time on all the lands belonging to said Company, That an agreement and settlement was made and Mr. Moore was permitted to redeem all of the land of the

Rochester Ranch Company, which had been sold to the County, for a certain amount of money. That the records of said meeting shows that considerable land belonging to said Company was ordered redeemed pursuant to said settlement, and that the above described tract of land was not included therein, but that it was evidently the intention of both the County and Mr. Moore to have the said tract included in said settlement, and

Whereas shortly thereafter Mr. Moore forwarded his check to Louis P. Oveson, County Treasurer, and asked that all of the said lands of the said Rochester Ranch Company be redeemed pursuant to said settlement, and the said treasurer proceeded to make redemption certificates for the said land, but in some manner unknown, the said tract above described was not included in the said redemptions certificates, although sufficient money was included in said check for its redemption, and

Whereas the record showing no payment or settlement of the said tract above described, the said land was deeded to the County, as above stated, and resold to Mr. Petty, and

Whereas the attention of the Treasurer and County Commissioners was called to said error shortly after the County had resold said land to Mr. Petty, and an investigation resulted which brought forth the foregoing facts, and

Whereas it appears from the records that the County Clerk, at the request of the County Commissioners has written to Mr. Petty, relative to said matter and advised him that there had been an error in selling said land, and that he would not secure any title as the County would or did not have any rights to sell, and that his money was ready for him at any time he desired to call at the County Treasurer's office and secure same, therefore,

Be it Resolved, that the County Treasurer of Emery County, be and he is hereby directed to issue a redemption certificate on said land above described in favor of the said Rochester Ranch Company, and the County Clerk be and he is hereby directed to write the said Howard Petty and advise him of the action of the Commissioners, and that his money will be repaid to him at any time he requests the same.

STATE ROAD COMMISSION.

Mr. H.S. Also explained that the first stage of construction would be the construction of bridges only, after survey was made.

At a meeting of the State Road Commission held December 23rd, 1926 it was determined that \$30,000.00 more or less would be the 26% of said project, and that the matter of State line connections and projects and such projects was discussed and decision reached that the State could not consider interior County's from State lines as legitimately Including State roads within said County as State line connections, an investigation determined the fact that no definite action had been taken by the State road Commission and no authority had been given for the application of Gas tax funds in lieu of State Road tax, or other County roads, to take care of the 26% required Engineer Keer purpose of meeting with the County Commissioners at this time was to explain these facts and state that the State road Commission would appropriate with Emery County on a 50-50 basis for the 26% of this above protest.

Engineer Kerr filed with the County Commissioners the Co-operative Agreement together with the resolution and map of the location of said project and improvements with the information that the cost of the said project was estimated at \$130,000.00 and that the Countys share of the 26% would be about \$16,900.00 , also advised the County Commissioners that the State would be willing to take the Countys note for this amount at the time the funds would be required for the construction of said project.

Howard County Attorney of Emery County, dated March 6, 1928, and written by Harvey H. Cluff Attorney General, wherein he gives his opinion that before a Water Conservation District is intitled to receive Auditors tax deeds on property for delinquent water tax where there is a County Tax against said property they the District should pay the County tax and costs in order to receive the fee to the land in Question, also reference is given in said latter to Section 21, Chapter 68, Session Laws of Utah, 1919, as amended by Chapter 9 of the Session Laws of Utah, 1923, That we the County Commissioners agreed at that time with Mr. Moffitt that he should refuse as County Auditor to issue Auditors Tax Deeds to the Price River Water Conservation District on property which was sold to the said District by treasurers certificate of sale for the 1925 district tax are where Emery County had taken Auditors tax Deeds until the said District paid the County for their taxes interest & costs held against said property. Therefore we the County Commissioners of Emery County at this time confirm the action of Herbert Moffitt County Auditor in refusing River to issue Auditors Tax Deeds to the Price River Water Conservation District and advertising for sale in the month of May property which the County has an interest in for the County Taxes Interest and costs, because the said District has failed to pay the County's taxes interest and costs against said property, and that Emery County will assume the responsibility of financing any law suit that may come out of the refusal of Mr. Moffitt County Auditor to issue the above said Auditors Tax Deeds.

This completing the business of the County Commissioners at this time meeting is duly adjourned.

CORRESPONDENCE.

The commissioners having received a letter from the County Commissioners of Wayne County relative to the assessment of the Texas Oil Company for the year 1928 as there has been some question in the minds of the County Commissioners of Wayne County as to which County the Oil rig was in at the time of assessment. The letter here referred to states that the Wayne County Surveyor has made a resent survey of the line dividing the Counties of Wayne and Emery and he claims that the oil rig was in Wayne County at the time It was assessed. Therefore the Commissioners of Wayne County request that Emery County forward the taxes on this said oil rig to Wayne County. The Commissioners instruct the County Clerk to write the County Commissioners of Wayne County that they intend to hold the said taxes until their Surveyor sends his field notes to Emery County to be compared with the field notes of the survey Emery County had made a few years ago by Earl Anderson, then if it is made clear to the Commissioners of Emery County that the oil rig was in Wayne County at the time of its assessment the taxes will be forwarded to Wayne County, but until this is done the taxes will be held, in Emery County.

RESOLUTION RELATIVE TO TAX CASE SETTLEMENT.

On November 26th, a complaint was filed with the Clerk of the District Court of Emery County, State of Utah, wherein the Commonwealth bank of Green River, and the Emery County Bank of Castle Dale were named as joint plaintiffs, and Ray Cox, as Treasurer of Emery County, state of Utah, was named as descendent, and Whereas,

Said suit was commenced to restrain said County Treasurer from collecting or attempting to collect any of the taxes levied against said banks for the year 1929, and

WHEREAS,

An order to show cause and a restraining order issued by Judge Dilworth Woolley on the 25th day of November, and served on the aid County Treasurer on the 29th day of November 1929, wherein said County Treasurer was ordered to show cause on the 14th day of said December 1929 why a permanent restraining order should not be issued against the collecting of said taxes as levied against said banks, and WHEREAS,

The laws of the State of Utah provide for the assessment of all banks within the state upon a basis of their capital stock, and the said banks contending that there are other companies and individuals within the State of Utah transacting the sane kind of business as these plaintiff banks and other banks within said State, but which said companies and individuals are not assessed in the same manner as the banks, and that competing moneyed capital is being employed or used by said companies and individuals in competition with plaintiff banks and other banks in the state of Utah, but which said companies and Individuals are not assessed in the sane manner as said banks. Reference is hereby made to said company for further information, and WHEREAS,

Similar suits have been instituted by the various banks through out the state against the various county treasurers to restrain then from collecting the taxes so assessed and levied, and WHEREAS,

Most of said suits have been compromised by the various County Commissioners and settlements made on a basis of about 35% of the taxes levied, said action having been taken by said county Commissioners of the other counties of the state by reason of the fact that the legal question involved in suits brought by some of the National banks in other states, and in which units the same allegations were made as a re contained in the suit herein referred to, have been decided in favor of the plaintiff banks, and WHEREAS,

In view of such decisions as have already been rendered by the Supreme courts of the States where this question has been at issue, it would seem that the county has very little chance of successfully defending against said suit now on file, and WHEREAS,

The said Plaintiff Banks have made an offer of settlement on a basis of 35% of the taxes as levied and assessed against said banks, and WHEREAS,

This question was considered and discussed at an informal meeting of the commissioners of Emery County, and the County Attorney authorized and instructed to make a settlement of said tax suit on a basis of 35% of the taxes so levied and assessed, as it appeared to said commissioners that it would be for the best interest of the County of Emery and other taxing funds interested in said taxes so assessed and levied against said banks to compromise said assessment and levy of said taxes. That according to said offer of compromise the said Commonwealth Bank would pay a tax of \$299.65, and the said, Emery County Bank would pay a tax of \$579.68, therefore be it resolved,

That the action of the County attorney of Emery County in entering and signing a stipulation for the settlement of said taxes above referred to and in the amounts here in before set forth, be and the same is hereby approved and confined. This completing the business of the County Commissioners at this time the meeting is duly adjourned.

On proper motion the order of the County Commissioners at their March meeting instructing the County Auditor to issue Auditors Tax Deeds to Emery County for all land sold for taxes in the year 1928, as provided by law and act for and in behalf of the Board of County Commissioners in calling and conducting said sale is hereby made void and of no effect.

And on proper motion the County Commissioners instruct the County Auditor not to take Auditor's tax deeds for property sold for taxes in the year 1928 until the year 1935 and not to conduct the May sale, because of the Senate Bill No. 45 passed at the latest Session of the Legislature, said Act amends Sections 80-10-25- and 80-10-59 of the revised Code and makes the following changes from the existing law:

Paragraph 7 of said letter of State Tax Commission reads as follows to wit:
Delinquent taxes or the year 1928, 1929, 1930 or 1931 may be redeemed at any time prior to January 1, 1935 upon payment of accrued, taxes, plus interest thereon at two per cent per annum.

The Tax Commission has submitted this question to the Attorney General and has been advised as follows:

It seems to me quite clear that the Legislature of 1933 anticipated and intended that the Revised Laws of Utah, 1933, would become effective in sufficient time to suspend the coming May sale.

In view of the fact that it is important for county officials to soon know whether or not to conduct the coming May sale, and in view of the pending circumstances, it is my opinion that more confusion will arise out of the conducting of the May tax sale than if it is not conducted. I therefore advise you to suspend or have suspended the coming May tax sale.

The Tax Commission concurs with the Attorney General that it was the obvious intention of the Legislature to grant to taxpayers whose property had been sold for delinquent taxes for the year 1928 an extension of time within which to redeem and a reduction in the amount required to redeem. The Commission, therefore, advises and recommends that property sold for delinquent taxes for the year 1926 be not advertised for sale pursuant to Section 6056 either in 1933 or in 1934 and that property sold for delinquent taxes for 1929 be not advertised for sale during 1934.

This completing the business of the board of County commissioners at this time meeting is duly adjourned. The County concurs with the above.

WHEREAS, Many of the workers at these camps are local men, some with families who would rather remain close to hone than to be sent to other sections of the country, and
Whereas, a road between Castle Dale and. Whereas, the foundation of this road is already in place and all of the necessary material in the district, and
Whereas, the people of Green River must, at the present tine, travel 100 miles and. through the county seat of another county to reach their own county seat town, Castle Dale, while the new road would cut this distance almost in half and provide a direct route, Now Therefore, Be it Resolved, By the Castle Dale Commercial Club in regular session assembled, that one of the two Conservation camps air ready in Emery County, be moved to this district for winter quarters, and be used in building this much needed road for the benefit of our citizens and taxpayers, And, be it further resolved, That a copy of these resolutions be placed on the records of the Club, and that copies be sent to the Commanding Officer of C.C.C.Camp F-10, the Commanding Officer of C.C.C. Joint meeting of the Board of County Commissioners and Representatives of the Emery County F.E.R.A. Committee consisting of Chairman Louis P. Oveson and A. Gardner Jewkes, Director, and Audrey Christensen, Social Director.

After some discussion concerning the inability of Emery County due to its financial condition to carry the relief load of unemployables in Emery County it was decided to leave the responsibility as far as possible with the present organized Relief setup in this county. It was the sentiment of the meeting that the Relief Organization was better prepared in all respects to administer proper relief to such as are in need because of their past experience in this matter.

The county agreed to do so far as possible its share in caring for its needy if and when it is called on to do so.

Resolution

Whereas, Utah State Highway #10 leads out from Price, Utah, to Salina, Utah, traversing Emory County, Utah,

And Whereas, Utah State Highway #10 is tee connecting highway between Transcontinental Highway U. S. #50, and Transcontinental Highways U. S. 89 and 91, leading into Utah's Southern Parks and Utah's Southland, as well as into the States of Nevada and California and Arizona,

And Whereas, Utah State Highway No 10 also serves as the only outlet for a great and growing mining and a agricultural empire, known as Emery County,

And Whereas, because of these facts, travel on said Utah State Highway #10 to and from Price, Utah, is heavily and constantly increasing,

And Whereas, Utah State Highway No 10 is at the present time routed across the six tracks of the D. 8: R. G. W. R. R. Company's transcontinental railway, in the City of Price, State of Utah,

And Whereas, such railway crossing of such transcontinental railway is extremely hazardous both to lives and property of automobilists on said highway, as well as passengers on said railway,

And Whereas, if an underpass under said tracks of said railroad was constructed the hazards and dangers arising from the present railway crossing would be eliminated,

And Whereas, in addition to eliminating the hazards and dangers of such crossing, such

an underpass would create additional work for the many men now out of work due to the acute depression existing in the coal industry in Carbon County, Utah,

Now, Therefore,

Be it Resolved by the County of Emery that it go on record as favoring the construction of such an underpass on Utah State highway No. 10, at Price, Utah; and that the County of Emery petitions the Utah State Road Commission to take immediate steps toward the construction of such an underpass, believing that Utah State highway #10 will thus be mane safer and better for the use of the motoring public.

Sale of County owned land

William F. Fail of Orangeville met with the Board of County Commissioners on this date concerning the land taken over by the county by Auditors Tax Deeds, and stated to them that he thought he could arrange some sales for this land and get it back upon the assessment rolls, he also advised them that he figured he could make the contacts with the prospective purchasers and assist the commissioners in making sales for a 10% commission and that he ought to have at least one year in which to try and work out the same, also that he would expect his commission on all sales made by the commissioners to people who had been contacted by him prior thereto.

The matter was generally discussed and commissioner Rosel J. Jensen moved that Mr. Fail be hired: to do some of this work and to pay him the sum of 100 on all sales made by the County Commissioners, on contacts which have been made by Mr. Fail, or where Mr. Fail has arranged the sale for the Commissioners, and that the amount of the sale price be the full amount of taxes interest end costs, unless otherwise ordered by the Commissioners. That it is understood that this work is to be in the nature of contact work with prospective purchasers, and that no delegation of the power expressly conferred upon the Board of County Commissioners is delegated to Mr. Fail, and that the arrangements herein made continue for one years time unless sooner terminated by either party. Also that such work may be started as soon as ordered by the Commissioners.

Motion was seconded by Carlyle Crawford, Commissioner, put to a vote and carried unanimously.

The Board of Equalization advised Mr. Clawson that it would be necessary to make an appeal to the State Tax Commission for relief and reconsideration on his improvements. Mr. Seely complained that he was unable to inhabit the house as the City of Greenriver had condemned the building. Mr. Seely felt that in addition to not being able to live in the house that the assessed valuation was double what it should be. After consideration of the matter it was decided that the appeal of Mr. Seely had merit and he was advised to make an appeal to the State Tax Commission for relief.

This is an appeal from the decision of the County Board of Equalization of Emery County, Utah, denying the petition of the appellant asking for a reduction in the valuation of property owned by the appellant, as determined by the Assessor of Emery County for the purpose of taxation for the year 1939.

The property is described as follows:
 Improvements on: Lot 2, Block 3, Castle Dale Town site Survey.

A hearing was held before Commissioner H. P. Leatham, at Castle Dale, July 18, 1939. From the testimony given the assessment of \$901 covers two homes on Lot 2, Block 3, Castle Dale. The proper assessment for the home owned by Mrs. Clawson is \$650 and \$251 for the smaller home on the same lot, owned by Lowell Clawson; therefore the assessment of \$901 represents an equitable assessment of this property and the petition for a reduction is denied.

DECISION

This is an appeal from the decision of the County Board of Equalization of Emery County, Utah, denying the petition of the appellant asking for a reduction in the valuation of the property owned by the appellant as determined by the assessor of Emery County for the purpose of taxation for the year 1939.

The real estate assessed is described as:

N. 45 ft. Lot 1 Block 1, also beg. 9 ft. N. SW Cor. Lot 5, Block 1, North 58 ft. East 130.9 ft. S. 58 ft. West 130.9 ft. to beg. Farris Subdivision, Green River City.

The improvements consist of a home.

The assessor placed a value of Two Hundred Ten (\$210.00) Dollars on the improvements.

A hearing was held before Commissioner H. P. Leatham of the State Tax Commission, at Castle Dale, July 18, 1939. From the testimony given, the Tax Commission finds that the valuation made by the County Assessor on the improvements in the amount of \$210 is excessive to the extent of \$110, and the County Auditor is hereby authorized and instructed to reduce the assessment on said improvements to the sum of \$100.

Motion was made by Rosel J. Jensen that the office of Janitor and Deputy Sheriff be combined starting October 1st 1939 and that the salary be fixed at the sum of \$75.00 per month and that Carl Templin act as said janitor and Deputy sheriff. Road Matters

At this time a delegation of citizens from Huntington, Castle Dale, Orangeville, Ferron, Emery, Cleveland and other towns in Emery County met with the Board of County Commissioners and Mr. Douglas Larson relative to obtaining an oil job on the road from Ferron to Emery. In the opinion of the delegation the road from Ferron to Emery should be oiled as it is much used especially as a school bus road and is dangerous at certain times in the year due to weather conditions and poor condition of the road.

Mr. Larson explained that state funds were depleted for construction and that all available funds were now being used for maintenance. Mr. Larson asked the delegation present if the road from Ferron to Emery was of more importance than the Salina Canyon Road or the construction new bridges over the creeks in Emery County. It was the sentiment of those present that the Ferron-Emery road was of most importance. Carlyle Crawford, County Commissioner made a motion that the next federal aid project in Emery County be the Ferron-Emery Road. Motion was seconded by Rosel J. Jensen. Motion was put and carried unanimously. Chairman Crawford then asked the delegation if that was the sentiment of all present. All present agreed.

The bridge over the Christiansen wash south of Emery was brought to the attention of Mr. Larson as being in a poor state of repair and he was asked if the state would consider repairing the bridge. Mr. Larson explained that as the state was constructing a new highway to the west the state would not repair the bridge but that would be left up to whoever took over the road.

The delegation present next asked Mr. Larson if the road work on the Huntington Canyon Road could be done by force account. It was explained that Emery County could furnish both skilled and unskilled labor. Mr. Larson explained what was necessary to change a job to forced account. Discussion pro and con was entered into by those present as to the advisability of changing to force account. Motion was made by O. W. Sitterud that the County Commissioners pass a resolution according to the wishes of those present asking that the Huntington Canyon road project be set up on force account for Emery County as this locality has been recognized as an emergency drought district. Motion was seconded by Clarence Guymon of Huntington. Motion was put and carried.

It was suggested by Mr. Larson that we go ahead with Huntington Canyon force account and investigate cleaning up of highways where hand and team labor can be used and replace wood structures with lumber from local saw mills. To create labor. Mr. Larson also agreed to arrange a meeting with the State Road Commission and the County Commissioners together with himself in the near future. The commissioners are to be notified when this meeting is to be held.

The Emery County Weed control and Eradication Committee, Merrill Cook, County Agricultural Agent, O.H. Barton, Ferron, C.N. Wakefield, Huntington, Oliver Jensen, Cleveland, George Magnusen, Castle Dale, Edgar Jewkes, Orangeville, Frank Hatt, Greenriver, Elmer Addley, Emery, excused:
The following program was adopted for the year 1943,

EMERY COUNTY WEED CONTROL AND ERADICATION PROGRAM
WITH
State Department of Agriculture and the
Emery County Commissioners Cooperating
1943.

As a sponsoring agent, the Emery County Commissioners have pledged themselves to the extent of \$2,000.00 to be dispersed through the cooperation of the Utah State Weed Program for the purpose of eradication of noxious weeds as follows:

Hiring of labor, for, and the expense of destroying burdock
and the purchasing and dissemination of weed chemicals for use
on other noxious weeds.

It is anticipated that in this program the State of Utah will furnish six supervisors for six weeks time to supervise the men on the program of burdock control.

The concentrated effort of the program in 1943 will be on the burdock weed. The work will be done by hand labor in the main. This labor will be paid for by the county and performed by boys hired by the weed supervisor. Some chemicals will be applied in rocky places and places inaccessible for hand grubbing.

An effort towards the control of weeds will also be made by the use of chemicals. The county will furnish to any individual of person, chemicals for the purpose of weed control. This material will be furnished at cost prices.

The county will be divided into six districts for this job, namely:

1. Emery and Moore
2. Ferron, Molen, and Clawson
3. Orangeville and Castle Dale
4. Huntington and Lawrence
5. Cleveland and Elmo
6. Greenriver.

On the control of burdock it will be the policy to start the work as near to the west boundary of the weed's occurrence as practical and work down the streams and driveways as far as time and money will permit.

The wage scale set by the county is for boys from 12 year to 14 year \$2.00 per day and the boys over that age \$2.50 per day. The boys will only work six hours per-day.

The exact details of the program will be left to each district supervisor and the committee man working in cooperation with the county commissioners and the Utah State Weed Eradication program supervisors.

In the Green River district it is anticipated that most of the work there will be done by chemical on weeds other than burdock and will be principally morning glory and Bermuda grass.

The supervisors should be appointed early in the year so they might get the work well in mind before the time of the program. The program is expected to last about 30 days for the control of burdock. The chemicals will be shipped into the county by the county commissioners and dispersed through the county offices.

Every effort will be made to solicit the help and assistance of the land owners and operators. Whenever possible they will be made to solicit the help and assistance of the land owners and operators. Whenever possible they will be required to assist the program in the ways and means best suited for the program determined by the supervisors of the project. Those who do not give full cooperation to the program will be watched very carefully and if necessary, a quarantine will be recommended in or order that the work might be efficiently carried out.

The chemicals used for weed control will be used only under the direction of the supervisor of the district, the county extension agent, or the agricultural inspector.

The committee and the supervisors will use every precaution to help enforce the pure seed law and to encourage, through contracts and publicity, the use of good seed.

The committee will cooperate with any and all agencies interested in or any that might be interested in the program, and to help with the control and eradication of weeds.

The committee will lend assistance to the supervisors in every way to see that the program is effectively and efficiently carried out.

The committee recommends the following supervisors in their respective districts:

Elmer Addley		Emery and Moore
O.H. Barton		Ferron, Molen, and Clawson
C.N. Wakefield,	Committeeman	
Frank Hall	Supervisor	Huntington and Lawrence
Oliver Jensen		Cleveland and Elmo
Frank J. Hatt	Committeeman	
Albert May	Supervisor	Greenriver
Edgar Jewkes	Committeeman	
George Magnusen		Castle Dale
Mostyn Cox	Supervisor	Orangeville

Members of the county committee:

Carlyle Crawford
Chairman, Emery County Commissioners

J.B. Jewkes
District Agricultural Inspector

Oliver Jensen
Chairman, Emery County Weed Control Com.

Merrill E. Cook
County Extension Agent

It was proposed that \$333. be prorated to each of the six districts in the eradication and control of burdock, except Greenriver, District, its prorated portion \$333. in a chemical weed eradication program distributed over a wide area for control of other noxious weeds.

Motion by Clinton N. Wakefield 2nd by Frank J. Hatt unanimously sustained by the Board of County Commissioners of Emery County, that \$400.00 be used from the Weed Eradication Fund to purchase chemicals to be distributed equally among the 6 districts provided that individuals farmers participate equally with the County in the purchase of Weed control chemicals and that they, the individuals bear cost of applying chemicals over weedy area.

Mr. Wm. T. Litster
County Attorney
Castle Dale, Utah

Dear Mr. Litster:

Reference is made to your communication of July 7, 1943 wherein you request advice as to the proper interpretation of Section 19-13-15, Utah Code Annotated, 1943, as amended by Chapter 30, Laws of Utah, 1943.

Specifically, you ask whether or not the salary increase permitted by that section is based upon the maximum salaries permitted by Section 19-13-14, Utah Code Annotated, 1943 or whether the increase is based upon the salaries which, prior to the amendment of Section 19-13-15, had been fixed by the county commissioners.

The amended Section 19-13-15 provides that the county commissioners may, on or before July 1, 1943, increase salaries of county officers in an amount which, in their opinion, is sufficient and proper provided that said increase shall not be in an amount greater than, in your case, 25% of the maximum salary fixed by Section 19-13-14. Accordingly, it is clear that the commissioners, in fixing the salary increase, might fix the salary at any figure which, in their opinion, was sufficient and proper so long as it did not exceed an amount equal to 25% more than the maximum permitted by Section 19-13-14, and that salaries which may have, in the past, been fixed by the county commissioners would not necessarily have any effect upon the amount which the commissioners should determine as being proper.

It is noted, you state, that the commissioners did, in fact, on May 23, 1943, pass a resolution advancing the salaries of county officers in your county. As indicated above, it was left to the discretion of the county commissioners as to the amount of salary to be paid, within the limitations heretofore indicated, and hence, you must of course look to the resolution passed by the commissioners to determine exactly what pay increases were authorized by them.

Yours very truly,

GROVER A. GILES
Attorney General of Utah

County Clerk of Emery County

Re: Columbia Steel Company
Plancor 301
Coal Interests

Dear Mr. Reid:

This is in reply to your letter of September 13, 1943, in which you returned to us Treasury Warrant No. 1,401,977 for \$450.00, which had been sent to you in consideration of the delivery to us of a Quitclaim Deed by the County Commissioners, covering certain lands in the Horse Canyon Area.

We note from your letter that you feel that Emery County has no right legally to quit claim titles to lands which do not belong to it, and that consequently the Commissioners have passed a Resolution denying their right to give a quitclaim to certain property described in your letter.

We regret the misunderstanding that has developed regarding this matter, and we assure you that it was not our intention to embarrass the County Commissioners by requesting an improper Quitclaim Deed. Our purpose in requesting the Deed was to obtain, first, the County's interest in property formerly owned by C.H. Gibbs, which has now been conveyed to us by Mr. Gibbs heirs; and second, to clear up all questions of past assessments on other properties being acquired by this corporation in the area.

We have entered into firm contracts to purchase the Ronzio & Delpiaz, F.C. Hennes and Peter Barboglio properties and we have a verbal understanding with the State of Utah that we are to purchase its property. These purchases

Mr. Fred W. Reid

would have been consummated before the receipt of the above mentioned Quitclaim Deed, except that we have encountered delays in having Abstracts of Title continued to date.

Regarding the Thomas F. Keeley property, it appears from information in our files that we have already obtained title by a Deed of Conveyance from the heirs of Thomas F. Keeley, and it is our understanding that the title of Thomas F. Keeley had passed to his heirs through probate proceedings.

Mr. Calvin W. Rawlings, of our Counsel, informs us that he explained this situation to you fully while he was in Price recently.

In view of the circumstances, we are again sending to you herewith the above-mentioned Treasury Warrant for \$450.00 in the hope that you will accept it as the agreed consideration for the Quitclaim Deed, and that you will have the County Commission nullify its action in denying the right of Emery County to quitclaim its interest in the lands covered by the Deed.

We are confident that in a short time appropriate documents will be filed for record in your County to clear up the whole situation to your satisfaction. Meanwhile, will you kindly acknowledge receipt of the warrant by signing and returning to us the attached copy of this letter. for your convenience there is enclosed a self-addressed envelope which requires no postage.

Yours very truly,

Agent

Attention: Road Commissioner

Gentlemen:

It has been brought to our attention that there is a seven-mile stretch of road in Deer Creek Canyon, which is reached via Huntington Canyon, which is in a bad state of disrepair. I have contacted the State Road Commission Concerning this stretch, and they tell me that it is not a state road.

I do not know whether this is a county road, or whether it may be an access road, under the jurisdiction of the Bureau of Mines. However, there is a large truck movement over this road, occasioned by a coal haul under Government contract, to the WRA Relocation Center at Topaz, Utah. The numerous rocks jutting out of this road are causing serious injury to truck tire. These truck tires are made of pre-war rubber at pre-war standards, and each time one of them is injured beyond repair a great deal of crude rubber is lost to the war effort.

If you have jurisdiction over this stretch of road, we would consider it a great favor if the road could be scraped and leveled as soon as it is possible, in order to eliminate the rock hazard.

We appreciate the fact that you are short of manpower and equipment, and ask only that you do give this some consideration of possible, providing, of course, that it is under your jurisdiction. If not, we would greatly appreciate the information as to whom we could appeal for assistance.

We wish to thank you for your cooperation and interest, and hope that we may be able to assist you at some future date.

Yours very truly,

Colonel H.A. Rich
Director of Selective Service of Utah
Utah State Headquarters
Utah Oil Building
10 West Broadway
Salt Lake City 9, Utah

Dear Sir:

As Board of Commissioners of Emery County we desire the following information regarding the draft policies and ratios of quotas as per capita of population being used in the Selective Service program of Utah.

What units of Agriculture are considered in deferring draftees?

It has been brought to our attention by stock producers and farmers of Emery County that shortage of help is our most important industry, that is live stock, is acute and will decrease herds fifty per cent in this county this year. It is impossible to obtain help in this industry.

Is it the policy of Selective Service to draft indiscriminately, regardless of the needs of industry?

It is well understood that laborers cannot be shifted indiscriminately into the live stock industry any more than in other professional industries.

We would appreciate any suggestion or recommendation you may have for our county in winning the war on the home front.

The Emery County Weed Control Committee, Merrill E. Cook, Agent, Edgar Jewkes and State Representative J.B. Jewkes, submitted a tentative weed program for Emery County for the year 1944.

1. That Emery County participate on a fifty-fifty basis with farmer on a chemical program.
2. That seven districts be organized.
3. That Emery County allocate \$2,000.00 to the Weed Control program.

EMERY COUNTY WEED CONTROL AND ERADICATION PROGRAM
WITH
State Department of Agriculture and the
Emery County Commissioners Cooperating
1944

As a sponsoring agent, the Emery County Commissioners have pledged themselves to the extent of \$2,000.00 to be dispersed through the cooperation of the Utah State Weed Program for the purpose of eradication of noxious weeds as follows:

Hiring of labor, for, and the expenses of destroying burdock and the purchasing and dissemination of weed chemicals for use on this and other noxious weeds. Also paying of some travel expense of the supervisors.

It is anticipated that in this program, the State of Utah will furnish seven supervisors for five weeks' time to supervise the men on the program of burdock control.

The concentrated effort of the program in 1944 will be on the burdock weed. The work will be done by hand labor, but especially with chemicals. This labor will be paid for by the county and performed by boys hired by the weed supervisor. It will be necessary for a farmer to pay 50% of the cost of the chemical used on his place for him to receive the benefit of the program. The county will pay the other cost of the chemical. The county will pay 50% of the cost of chemical used on any noxious weed.

The county will be divided into seven districts for this job, namely:

1. Emery and Moore
2. Ferron and Molen
3. Clawson and Orangeville
4. Castle Dale and Lawrence
5. Huntington
6. Cleveland and Elmo
7. Greenriver

On the control of burdock it will be the policy to start the work as near to the west boundary of the weed's occurrence as practical and work down the streams and drive ways as far as time and money will permit.

The wage scale set by the county is for boys from 12 years to 14 years \$2.00 per day and the boys over that age \$2.50 per day. the boys will only work six hours per day.

The exact details of the program will be left to each district supervisor and the committeeman working in cooperation with the county commissioners and the Utah State Weed Eradication Program supervisors.

In the Green River district it is anticipated that most of the work there will be done by chemical on weeds other than burdock and will be principally morning glory and Bermuda grass.

The supervisors should be appointed early in the year so they might get the work well in mind before the time of the program. The program is expected to last about 30 days for the control of burdock. The chemicals will be shipped into the county by the county commissioners and dispersed through the county offices.

Ever effort will be made to solicit the help and assistance of the land owners and operators. Whenever possible they will be required to assist the program in the ways and means best suited for the program determined by the supervisors of the project. Those who do not give full cooperation to the program will be watched very carefully and if necessary, a quarantine will be recommended in order that the work might be efficiently carried out.

The chemicals used for the weed control will be used only under the direction of the supervisor of the district, the county extension agent, or the agricultural inspector.

The committee and the supervisors will use every precaution to help enforce the pure seed law and to encourage, through contacts and publicity, the use of good seed.
