MINUTES OF A SPECIAL MEETING OF THE BOARD OF COUNTY

At a special meeting of the Board of County Commissioners of Emery County, State of Utah, held on September 14, 1944, the following Commissioners were present:

Carlyle Crawford, Chairman
Frank Hatt
Clinton Wakefield

Each of said Commissioners waived notice for the special meeting which was called for the purpose of determining what Emery County should do in the Malcolm McKinnon suits to quiet title wherein Emery County is named as a party defendant.

Chairman Carlyle Crawford presided at said meeting. Duane A. Frandsen, of the law firm of Jensen and Frandsen of Price, Utah, appeared before the Commissioners and explained to them Emery County's position in these law suits. Mr. Frandsen stated that County Clerk Fred W. Reid had called them, Jensen and Frandsen, on the telephone and asked them to represent the said count in the two law suits which had been filed, and that in pursuance to authority from Mr. Reid, they filed a Demurrer in the actions, and that they later learned that the County Attorney, W.T. Litster, had filed a disclaimer. Mr. Frandsen then advised the Commissioners that they were to one to decide what they would like done in defending these law suits.

Commissioner Frank Hatt asked Mr. Frandsen what he and Mr. Jensen would handle the case for. Mr. Frandsen stated that they would ask for a \$50.00 retainer and that they would be able to tell very soon whether Emery County had any meritorious defense or claim; that if investigation showed that Emery County had no claim that could be asserted, they would proceed no further and their fee would be the \$50.00 retainer, but if investigation revealed that Emery County did have a claim that could be asserted they would make a reasonable charge for the work done.

Mr. Hatt then moved that Emery County retain Jensen and Frandsen to represent Emery County in these law suits to quiet title filed by Malcolm McKinnon on the terms outlined by Mr. Frandsen, and that said Jensen and Frandsen be instructed to have the disclaimer, filed by Mr. Litster, with drawn and to present any defense of claims that Emery County may have as they see fit.

The motion was seconded by Clinton Wakefield and carried unanimously.

Gentlemen:

Pursuant to the authorization given me over the telephone by Commissioner Wakefield, I agreed with the McKinnons to settle the two cases of McKinnon V. Fail and Emery County and McKinnon V. Klotz and Emery County for the sum of \$500.00. I Understand this amount has been paid to the county and I have, therefore, signed the stipulation consenting to have the claims of Emery County withdrawn.

In view of the fact that the amount of the settlement was much less than I anticipated—and considerably less than we should have received had circumstances worked out differently—I am enclosing a bill for only \$200.00 rather than the fifty per cent fee agreed upon. Inasmuch as I am leaving shortly for the Armed Forces, I would appreciate your approving this claim at once and sending me your check for that amount.

In view of the fact that you will probably have this same legal question arise again in the future, I suggest that keep in mind the experience we have had with this case and refuse to negotiate any settlement without the advice of your legal counsel. There is no reason why we should not have received a much better settlement in these cases if there had not been the misunderstanding concerning the merits of the case which caused you gentlemen to authorized settlement for payment of the taxes merely.

Respectfully yours

UTAH WATER
USERS ASSOCIATION
1320 Continental Bank Building
Salt Lake City 8, Utah

August 4, 1945.

County Commissioners of Emery County
Castle Dale
Utah

Gentlemen:

The Utah Water Users Association was organized for the purpose of promoting the conservation, development and utilization of water and power resources of the State, and with the cooperation of State and Federal agencies promote the cause of reclamation of lands of this State by irrigation. The 1945 Legislature formally recognized this organization as the one to adequately and properly plan and execute the over-all work of improving conditions for water users of the State by passing laws permitting and encouraging counties to make direct contributions to it to carry out this purposes above set forth. The laws enacted are set forth in the 1945 Session Laws of Utah, Chapters 32 and 107.

Considering the questions of population, assessed valuation and water advantages to accrue to your county in ratio with the rest of the State, the officers and directors of this organization consider that your county might well contribute to us the sum of \$200.00.

The development of our water rights and the increasing of the amount of water available for culinary and irrigation purposes are so important for post war projects that we feel sure you will desire to do whatever you can to assist and will set up in your next budget funds for this important purpose. If you have any questions relative to the advisability of making this contribution, a member of our organization will welcome the opportunity of meeting with you to more fully explain why such contribution should be made you your county.

Very truly yours
UTAH WATER USERS ASSOCIATION

RESOLUTION

Lorin Hunter and A.G. Jewkes Jr., representing the Castle Dale Lions Club, Floyd Brinkerhoff and County Representative D. Homer Jensen, representing South Emery interest and J.A. Theobald, secretary of Carbon County Associated Industries appeared before the Board of Commissioners of Emery County in support of the following resolution:

R E S O L U T I O N

WHEREAS, at an assembly and meeting held at Richfield, Utah, on August 16th, 1945, attended by various members of Boards of County Commissioners and/or duly authorized representatives of Civic Organizations and Groups of various cities and towns of Carbon, Emery, Sevier, Piute, Sanpete and Beaver Counties, it was unanimously determined and agreed that said Boards of County Commissioners of each of said counties, and all civic organizations and groups within said counties should petition and request the Utah State Road Commission and his Excellency, Governor Herbert B. Maw, to request of and from the Federal Bureau of Roads or such other agencies as may have jurisdiction thereof, to designate as a part of the Federal Aid Road system in Utah, that section of road known as Highway No. 13 commencing with Sevier Junction on Highway No. 89 and running westerly through Clear Creek Canyon to Cove Fort on Highway No. 91, and that section of road known as Highway No. 21, commencing at Milford and running westerly until it connects with Highway No. 6 at or near Baker, Nevada; and that the roads to be so designated as a part of the Federal Aid System in Utah, together with the Salina Canyon Road, known as a part of Highway No. 10 and which has heretofore been designated at a part of the said Federal Aid system be then completed and hard-surfaced as a part of the post-war Federal Aid Road System, so that there will then be a complete east and west Federal Aid Highway System running easterly and westerly through Central Utah; and

Whereas, large quantities of coal from and Carbon and Emery Counties are necessary for use in Southern Utah, and particularly in Sevier, Sanpete, Piute and Beaver Counties, and counties in Utah farther south, with no rail facilities, and which coal must of necessity be brought into said counties by truck, and the suggested Federal Aid Highway System offers the most feasible and economical route; and

WHEREAS, considerable quantities of livestock and livestock feed and supplies are hauled by truck from Emery County to Sevier County and visa versa, and the shortest and most economical route between the two counties is through Salina Canyon, not only for the transportation of livestock and Livestock feed and supplies but for transportation of coal and for the interchange of commerce between the said counties; and

WHEREAS, large quantities of potatoes, approximating several hundred car loads per year are transported by truck from Piute and Garfield Counties to Milford, Utah, for rail transportation to Southern California, and the shortest and most economical route for such trucking is through Clark Creek Canyon over said road No. 21, the said shipments aggregating several hundred car loads per year; and

WHEREAS, sheep men residing in Sevier, Sanpete and Emery Counties use the winter range lying westerly from Milford and served by Road No. 21, and have occasion each year to truck considerable quantities of sheep supplies and feed and sheep over the said road in order to reach such range; and

WHEREAS, it is the belief of the County Commissioners of said Counties, and of the various civic organizations, and the citizens and industries within all of said counties, that the counties and their citizens and residents could be greatly benefited from a standpoint of economy and in various other ways by the said Federal Aid System and construction of the said roads; and that such a road system is necessary and essential to build up the various communities and for the financial well being of the coal, livestock, sheep, farming and all industries; and

WHEREAS, the road through Salina Canyon has heretofore been designated as a part of the Federal Aid Road system and has already had expended upon it many thousands of dollars, but it is now without value and practically impassable at certain times of the year, and cannot be made serviceable or of any practicable value without completion; and

WHEREAS, the only stretches of road along the proposed Federal Aid Highway system which would run easterly and westerly through Central Utah and which have not been hard-surfaced are the following:

1. Completion of the Salina Canyon Road:
2. The Clear Creek Canyon road No. 13 (about twenty miles);
3. Highway No. 21 from Milford to Baker, Nev. (about 90 miles);

WHEREAS, the Clear Creek Canyon Road, No. 13, is within (or largely within) the National Forest, and is now and has been for some years completely graded and graveled and needing only the hard-surfacing to complete the same; and

WHEREAS, Road No. 21, from Milford westerly is now and has been for approximately forty years last past used as a post or mail route over which the United States Mail from Southern Utah to Ely, Ruth, McGill (Nevada) and that surrounding country, has been carried, and for some years last past has been graded and graveled and kept up to the specifications of a mail post road; and

WHEREAS, the inclusion of the Clear Creek Canyon Stretch and the Milford stretch, Highways Nos. 13 and 21, in the Federal Aid System, and the hard-surfacing thereof would be comparatively inexpensive because said stretches have been heretofore graded and graveled and engineered; and

WHEREAS, the completion of such a Federal Aid Highway system would serve thousands of tourists annually and provide a short and necessary route in passing through Central Utah;

NOW THEREFORE, BE IT RESOLVED BY THE Board of County Commissioners of Emery County, Utah, that the said

Board does hereby ratify and confirm all of the foregoing preamble and does hereby petition the Utah State Road Commission and his Excellency, Governor Herbert B. Maw, to take such steps and do such things as quickly as the same may reasonably be done, to accomplish the aforesaid purposes and place the foregoing described roads on the Federal Aid Highway System in Utah, and to complete the Salina Canyon Road; and that said Board of County Commissioners be represented at any meeting to be shortly called in Salt Lake City for the Purpose of presenting this matter to the said State Road Commission and said Governor Maw; and

BE IT FURTHER RESOLVED that said Board of County Commissioners call upon all civic organizations and groups within its county to likewise attend such meeting, and together with said Board of County Commissioners urge favorable action as hereinbefore stated.

A survey of the Receipts and Disbursements of the General Fund for Emery County for the fiscal year of 1946 indicated that a further elimination of deputy hire and expenses of some departments of the County would be necessary to live within tentative budget for these finds for the year 1946.

By motion of Ervin Wimber and seconded by Clinton N. Wakefield that a further reduction of \$250.00 from the present figure of \$3750.00 named in Tentative budget be fixed against the proposed budget for this department and that it be made to read \$3500.00 for the year 1946.

Motion passed by a unanimous vote, all members present and voting.

The Budgets of the County Roads, Special Class B Road Fund, Poor Fund, County Public Welfare Fund, Bond Interest and Sinking Fund, Exhibits and Advertising Fund, Agricultural Agent Fund, Weed Control Fund, County Library and Building and Construction Reserve Fund. By motion of Ervin Wimber and seconded by Frank J. Hatt, unanimously approved, all members present and voting that the Tentative budget in and for Emery County be set as follows:

1. We recommend that the County purchase two spray machines for use in a weed program.
2. We recommend that the machine be used for noxious weeds mainly Morning Glory, White Top, Canada Thistle, and Burdock.
3. We recommend that a systematic program be worked out which will include the hiring of a weed supervisor and crews to run the sprayers.
4. We recommend that the program provide for the allowing of the County to sign weed contract agreements with individuals wanting weed work done and if the individual wishes he can let the cost of the work go on his taxes. This will insure the collection of all bills for weed work. In order to carry this program on the week Supervisor would have to be deputized as an agricultural Inspector.
5. We recommend that the spray machines be used:
 - 1- On public lands, highways, roads, and etc.
 - 2- On canals and main ditches.
 - 3- On private lands which are so heavily infested that individuals cannot control the weeds.

The foregoing plan was adopted by a unanimous vote of the full membership of the Board of Commissioners.

P. Eugene Johansen

P. Eugene Johansen, former Treasurer of Emery County, appeared before the Board of Commissioners of Emery County and asked for special hearing on the Beesley, Wood and Company Audit of 1942 in which they reported a shortage of cash against the Treasurer's Accounts in the amount of \$1,020.83.

Statement: That due to the period of depression which existed from the year 1935 to 1939 demands were made upon the County road department for labor both single hand and team. Laborers were allowed by Board of Commissioners Orders to turn County Road Warrants to County Treasurer in payment or part payment of taxes or property redeemed from back taxes. Over 1600 part payment tax receipts, redemptions, tax sales receipts, and contracts were issued during the period 1935-to 1943 without property means for accounting and rechecking of this unusual load. This extra burden of irregular procedure ran through the entire period without being properly audited.

The 1943 audit explanation by the Treasurer seemed insufficient evidence to Auditing Company for the seeming difference of cash receipts reported against Treasurer's Department and the cancellations of receipts made without the original receipt return being attached to stub.

The former Treasurer Eugene Johansen therefore submits to this Board of Commissioners the enclosed statement of his claims as being just and sufficient evidence of the amount heretofore shown as short cash by County Audit of year 1942 to actually be substantially as follows in attached statement:

Dear Sirs:

In 1941, after filing for veterans tax exemption, I failed to get credit for the piece of property described below:

S. ½ of S.E. ¼ of N.W. ¼ of Sec. S.L.M.

I applied to Carlos Larsen, who was then clerk, Having no blanks he said he would take care of it for me. When my tax returns came back I was still charged with tax on this piece of property. If you would care to investigate at the recorder's office you will find the property was in my name as well as the rest of my real estate.

Would appreciate it very much if something could be done about this as I am selling the property now and the owner would like a clear title.

Respectfully,

Mrs. Jennie C. Jewkes

Deeds

S.B. Wilson

Letter of S.M. Wilson of Green River, submitted to the Board of Commissioners, was acted upon by Commission as per letter.

January 14, 1947

Mr. S.M. Wilson
Green River, Utah

Dear Mr. Wilson:

Am returning herewith enclosed on Quit Claim Deed executed by S.B. Wilson and his wife Helen J. Wilson also County Deed issued to S.B. Wilson of Green River by Hector L. Peterson, County Clerk.

This matter was taken up by the Board of Commissioners and on investigation it was decided that it would be necessary for the title of the County to be cleared before a correction deed could be issued without involving the County. The affair was then placed in the hands of the County Attorney for abstracting the County's right of title.

I am herewith enclosing a Memorandum of the title as the records of the County show them. It indicates that the County has no right nor title in said property but rather that Mr. S.B. Wilson may go right ahead and issue a Quit Claim Deed to Mrs. Josephine M. Sullivan and also to the Wilson Produce Co., thus eliminating the County or involving it in any way.

Trusting this will clear this matter to your satisfaction.

Yours very truly,

Fred W. Reid
Fred W. Reid, Clerk

MEMORANDUM Re:

Request of S.B. Wilson to have correction County Deeds issued to S.B. Wilson and to Josephine M. Sullivan in connection with property covered by County Deed dated June 7, 1940 to S.B. Wilson:

N $\frac{1}{2}$ N $\frac{1}{2}$ of Lot 14; N $\frac{1}{4}$ of Lot 18; W $\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 4,
Township 21 South, Range 16 East of S.L.M. (requested
deeded to Josephine M. Sullivan)

Also E $\frac{1}{2}$ E $\frac{1}{2}$ and SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8, Township 21 South,
Range 16 East of SLM, containing in all 250 acres.
(requested deeded to S.B. Wilson)

The property requested to be deeded to Josephine M. Sullivan was involved in a quiet title proceeding back in 1930. The Court in that case decreed that the Wilson Produce Company (a partnership) had no right to such property and title was quieted in one Evelyn Stout. By deed dated Dec. 28, 1931, Evelyn Stout conveyed this property to Josephine M. Sullivan. This deed was not recorded until November 22, 1937. On Dec. 30, 1935 this property was sold to Emery County for taxes delinquent November 30, 1935. No taxes were paid thereon for 1936, 1937 or 1939. Taxes were paid for the year 1938. On April 1, 1940 the County Clerk and ex-Officio Auditor issued his Auditor's tax deed to Emery County. On June 3, 1940, the Board of County Commissioners authorized the sale of said property to S.B. Wilson together with the Section 8 property described above. On June 7, 1940 the county Clerk executed the County's Deed covering all of the above described property to S.B. Wilson. This Deed is in the present file and was returned by S.B. Wilson with his request as noted above.

Upon the foregoing premises I see no good reason for the County issuing a correction deed. Based upon the foregoing information as to the county records it would seem more appropriate that S.B. Wilson give his quitclaim deed to Josephine M. Sullivan.

Reference has been made to the Green River Canal Co. vs. The Green River Irrigation District Suit to quiet title to Lot 4, Section 17, Township 20, Range 16 East and five abstracts of title used as exhibits therein, which are requested to be returned. The Court's file in this case can not be located.

Respectfully submitted,

R.R. Jewkes

R.R. Jewkes,
County Attorney.

Claude L. Erickson

Claude L. Erickson, Treasurer Elect, from Elmo, Utah appeared before the Board of Commissioners and submitted his resignation as Treasurer of Emery County.

Elmo, Utah
Jan. 6, 1947

To the
Board of County Commissioners
of Emery County, State of Utah,
Castle Dale, Utah.

Gentlemen:

I have now qualified as County Treasurer, having taken the oath of office, and filed my official bond as required by law. As you know, the bond has been approved, and I am now County Treasurer of Emery County.

Because of the fact that the compensation paid the County Treasurer of a County the size of Emery is very low, and because of the fact that I am a married man, having six children, and because of the fact that due to the present high cost of living I do not feel I can adequately care for them on the basis of the present salary of the County Treasurer, I regretfully must now submit to you my resignation to this office.

My family must of necessity come first with me, and as much as I regret to disappoint the many friends who voted for me in the last election, I know they will appreciate the position I have been placed in, due to the fact that I must make an adequate living for my family, and cannot provide them an adequate living on the present compensation payable to the County Treasurer.

Therefore, as I have stated before, I regretfully submit my resignation as County Treasurer of Emery County, State of Utah, and as you know, under the provisions of Sec. 19-5-19, Utah Code Annotated, Vol. 2, affirmed in Toole County v. De La Mare, 90 U. 46, 59 P. 2d, 155, you have the power to accept the same. I must ask you to accept this resignation, and I know you appreciate the fact that I would like to serve the people of Emery County as their Treasurer, if I could do so without injuring the welfare of my family by so doing.

I desire that this resignation take effect immediately, as the present appointed County Treasurer has assured me that he will continue in office until you appoint a successor to me. I know that he is competent to carry on the duties of County Treasurer, and that the interest of Emery County will not be injured or impaired by your accepting my resignation of this date.

Appreciating your considering this matter and accepting my resignation as herewith offered, I am

Very respectfully yours,

Claude L. Erickson

East 13 ¼ rods; SE'ly 60 rods;
West 12 ¾ rods to beginning,
Section 20, Township 17 South,

The records of the County Recorder show that on August 14, 1937 Peter E. and Aurelia M. Johnson conveyed by warranty deed the above described property to W.P. Jarvis and Don Wakefield (Book A-10 page 365); THAT ON December 30, 1937 the above property together with an adjoining larger parcel of land was sold for delinquent taxes under preliminary sale; that on May 29, 1942 the County Auditor issued his Auditor's Tax Deed to the County covering the above described property; That on March 3, 1943 a County Deed was given to Peter E. Johnson gave his warranty deed to Lealen Collard covering the above described property; AND THAT on May 26, 1945 the County of Emery issued its tax deed to Ralph Grange covering the above described property.

Obviously, the last above named deed (tax deed) was issued in error. It is accordingly recommended that Mr. Grange be reimbursed for his purchase money advanced; \$10.08 and that the County Treasurer also reimburse Mr. Grange for taxes, if any, he claims to have paid for the year 1946. It is understood that

Mr. Collard also paid taxes on this property for 1946, it having been included in the description of property contained in above referred to deed dated March 17, 1944 from Peter E. Letter of May 8, 1947
The State of Utah
State Tax Commission
118 State Capitol

Salt Lake City, Utah was adopted as a basis for the exemption of real and personal property owned by disabled veterans of this state by a unanimous consensus vote of the Board of Commissioners of Emery County.

May 8, 1947

To The Honorable Board of County Commissioners
County of Emery
State of Utah
Castle Dale, Utah

To assist counties to establish and maintain uniformity in the administration of the laws affecting taxation, we are enclosing herewith a copy of a recent ruling of the Attorney General of Utah, relative to Senate Bill No. 74, which relates to the exemption of real and personal property owned by disabled veterans of this state.

STATE TAX COMMISSION OF UTAH

By Edith Stoddard
Secretary

OFFICE OF THE ATTORNEY GENERAL
STATE CAPITOL
SALT LAKE CITY, 1 UTAH
April 17, 1947

Mr. Edward M. Morrissey
County Attorney
Salt Lake County
City and County Building
Salt Lake City, Utah

Attention Elliot W. Evans, Chief Deputy

Dear Mr. Morrissey:

In your letter of April 5, 1947 addressed to this office you have requested an opinion as to the applicability of Senate Bill No. 74, which was approved March 6, 1947 by the last session of the Legislature. This bill purports to allow and exemption not exceeding \$6,000 on real and personal tangible property situated in the state of Utah, owned by disabled veterans who served in any war in the military service of the United States, or the state of Utah, and by unmarried widows and the minor orphans of such persons.

The bill amends Section 80-2-4 and 80-2-5, Utah Code Annotated 1943 which heretofore have allowed an exemption not exceeding \$3,000 on such property. Inasmuch as Senate Bill No. 74 will not take effect until May 13, 1947, you have specifically asked if the increased exemption may be allowed this year inasmuch as Section 80-2-5, originally and as amended, requires that application be made on or before May 1 in each year.

A study of the problem raised by your letter revealed that Senate Bill No. 74, in purporting to raise the exemption from \$3,000 to \$6,000 is obviously unconstitutional since it contravenes Section 2 of Article XIII of the Constitution of the state of Utah as amended. This Section of the Constitution originally and as amended reads, in part, as follows:

" * * *The legislature may provide for the exemption from taxation of homes, homesteads, and personal property, not to exceed \$2,000 in value for homes and homesteads, and \$300 for personal property. Property not to exceed \$3,000 in value, owned by disabled persons who served in any war in the military service of the United States of the state of Utah and by the unmarried widows and minor orphans of such persons may be exempted as the legislature may provide. * * *"

The law is well settled that constitutional and statutory provisions allowing exemptions from taxation must be strictly construed, and that it is impossible for the Legislature to go beyond constitutional limitations in this regard. This rule is clearly stated in 61 Cor. Jur. 390 as follows:

"Where the constitution in terms confers upon the legislature, in its discretion, authority of grant exemptions within certain defined limits, statutes of exemptions thereafter passed are valid if they do not exceed the constitutional limits, and void if they do; and where the constitution enumerates the exemptions, it is generally held that statutes exemption property not enumerated are void, unless, in addition to the property enumerated, the constitution expressly authorizes the exemption of such other property as the legislature may direct."

Since Senate Bill No. 74 attempted to amend the sections of the code above referred to in one particular, namely, the increasing of the exemption from \$3,000 to \$6,000, the old sections of the code remain in force and effect, and county authorities may continue to allow the \$3,000 exemption.

It is my opinion that Senate Bill No. 74 must be disregarded by taxing authorities, and that in order for the Legislature to increase the exemption allowed disabled veterans, it will be necessary to submit a constitutional amendment to the people.

Yours very truly,

/s/ GROVER A. GILES
Attorney General

Honorable Board of County Commissioners
Emery County Court House
Castle Dale, Utah

Gentlemen:

Our attention has been directed to the fact that in the year 1946 we assessed the equipment and improvements of R. Glenn Davis at his coal mine in Link canyon, west of Emery, in Emery county, instead of in Sevier county, where the property is situated. We are further advised that Mr. Davis has paid the tax bill in the amount of \$282.69 covering this property.

In our opinion this tax was erroneously and illegally collected due to an error on our own part. We, therefore, recommend that this amount be refunded to Mr. Davis, as we are now sending an assessment of this property for the year 1946 to Sevier county to be entered there.

We shall advise Mr. Davis of this action upon our part and request him to make application to you for the refund of the taxes erroneously collected.

Very truly yours,

STATE TAX COMMISSION

George Magnusen of Castle Dale, Utah, appeared before the Board of Commissioners and submitted a signed protest against the proposed increase of tax levy on the schools of Emery County, Utah, for the year 1947. Action deferred to the meeting of August 9, 1947. The following is a copy of the Protest:

PROTEST TO: "August 1, 1947

THE BOARD OF COUNTY COMMISSIONERS
EMERY COUNTY, STATE OF Utah

Re: Increase of 10.9 mills in the
School District Tax Levy.

"The undersigned taxpayers of Emery County, State of Utah, Hereby register with you their protest of the proposed increase on the tax levy of 10.9 mills, the entire proceeds of which are proposed to be used for the maintenance and operation of presently existing schools in Emery County, Utah.

"In support of this protest we call your attention to the following irregularities and inconsistencies as revealed by the proposed Emery County School District Budget for the fiscal year 1947-1948:

"OVERALL SCHOOL DISTRICT ADMINISTRATIVE EXPENSES ARE TO BE INCREASED 44%	INCREASE
Superintendents salary is to be increased -----	34%
Superintendent's salary Stenographer's salary to be increased -----	37%
Office expense to be increased -----	33%
"Other Administrative expense" to be increased -----	200%
Legal Services expense to be increased -----	100%
Election expense to be increased -----	50%
Salaries of school teachers to be increased -----	38%
Maintenance of Plant (repairs) to be increased -----	43%
Cost of transportation to be increased -----	33%

"Excepting the last two named items above, the above mentioned increases accrue to the benefit of the Superintendent, the Supervisor (who will receive a 22 ½% raid in salary), the Principals and the Teachers, which items account for practically all of the revenue to be derived from the new tax levy.

"Compare the FOREGOING WITH THE FOLLOWING which apply to the needs and comforts of our High School students and children in the elementary grades.

	INCREASE
Test Books --NO CHANGE (Are our children provided presently with the best text books and in good condition?)	None
Library Books--NO CHANGE (Our libraries are far below standard. Do our children need no extra-curricular facilities and training?)	None
School Supplies--NO CHANGE (Have not the prices of school supplies increased?)	None
HEALTH--NO CHANGE (Is the Administration interested in the health of our children?)	None
Special Lectures to be increased -----	25%
School Lunch to be increased only ----- (Have food prices increased only 2 ½% and has there been no increase in school population?)	2 ½%
Census has been eliminated entirely ----- (The Utah Code provides that enumerators (census takers) shall visit every dwelling in the County between October 15 and 31 of <u>each year</u> . Are the Superintendent, Supervisor, Principals and Teachers to take the <u>census</u> this year and thereby deprive some citizen of a small wage?)	Eliminated
Capital Outlay for furniture and fixtures ----- NO CHANGE--BUT LAST YEAR \$4500.00 was diverted from this account to meet excessive ADMINISTRATION EXPENSES, overdraft in Superintendent's expenses, certain operation of Plant expense and Rent and Insurance Items. Superintendent's expense for 1946-47 was overdrawn as of the end of March, 1947, in the amount of \$79.14. As of the end of June, 1947 the Budget Sheet issued by the Board of Education indicates the Superintendent's Expense to have a credit balance of \$47.49. This was accomplished by manipulating a transfer of funds from the "Other Administrative Expense" account, increasing the overdraft there, and by then borrowing \$700.00 from the unexpended "Capital Outlay" for furniture and fixtures account.	None

"There follows a comparative schedule of salaries to be paid the Superintendent, Supervisor, Teachers of Emery County with its neighboring counties, Grand, Carbon and Sevier, which is self explanatory of and ill-advised allocation of salaries commensurate with the abilities of each of said Counties to meet tax levies:

	Supt.	Supt. Expense	Elem. Sup.	Teachers Top Salary
Emery	\$5680.00	\$800.00	\$4750.00	\$3760.00
Carbon	5200.00	800.00	3880.00	3630.00
Grand	4100.00	350.00	3200.00	3500.00
Sevier	5100.00	275.00	4000.00	3380.00

"The annual salaries of the officers of all counties in the State shall be fixed by the respective boards of county commissioners at not to exceed the following maximum amounts:

	Class 1	Class 2	Class 3	Class 4	Class 5
Commissioners	\$4500.00	\$2400.00	\$1000.00	\$ 600.00	\$ 600.00
Sheriff	4500.00	3500.00	2000.00	2000.00	1400.00
Assessor	4500.00	3500.00	2000.00	2000.00	1400.00
Clerk	4500.00	3800.00	2000.00	2000.00	1400.00
Recorder	4500.00	3500.00	2000.00	2000.00	1400.00
Treasurer	4500.00	3500.00	2000.00	2000.00	1100.00
Attorney	4500.00	3500.00	2000.00	1500.00	900.00

"The Superintendent's, Supervisor's, Principal's and Teacher's (Emery) salaries for the fiscal year 1947-48 will be comparable to those of Salt Lake City, Ogden, Provo, Murray and Tooele, the largest cities in the State. Emery county according to the above schedule is rated "Class 4" and the officers of Emery County receive, each, \$200.00 per year less than the maximum allowed under the statute. It is asked that the Superintendent, Supervisor, Principals and Teachers keep these facts in mind when they seek to have the taxpayers burdened with taxation.

"We are desirous and agreeable to the proposition that our teachers shall have an increase in salary, but only an average increase which would be in keeping with the taxpayers wealth and earning power. We are not agreeable to an extravagant increase of Administrative expense such as shown above. We want more and better teachers, more and better schools and accommodations for our children, for whom such schools were established. It would seem the Board of Education is of the view the school program was established principally for the benefit of the Superintendent and Supervisor.

"We hereby request your consideration and recommendations for and of ways and means to effect a downward revision of the Budget of the Board of Education, particularly as to items of Administration, salaries of the Superintendent, Supervisor. We think further that to a lesser degree the salaries of Principals and Teachers should be revised downward."

Green River, Utah
August 11, 1947

Minutes of a meeting held at Green River, Utah, at the hotel, by the Board of Commissioners of Grand County: L.L. Taylor, G.C. Patterson and Dale M. Parriott; and Commissioners of Emery County: Ervin Wimber, Clinton N. Wakefield and R. Merrill Allred; R.R. Jewkes, County Attorney; and representative citizens of Green River City, Richard Bedier, I. Clay, W.S. Asimus, Howard Silliman.

A motion was made by Com. L.L. Taylor of Grand Co., that Ervin Wimber, Com. of Emery County, be appointed Chairman of the meeting and was seconded by G.O. Patterson. The motion was sustained by a unanimous vote of members present.

Mr. Wimber stated that the purpose of the meeting was to discuss a means of establishing a permanent boundary line between Grand and Emery Counties. Attorney R.R. Jewkes was called to report previous action taken. His report showed that through correspondence, property owners on the Green River indicated much indecision and contention of exact boundary lines between Grand and Emery Counties of said claimants, and that exact boundary lines between Grand and Emery Counties could not be established and set up due to the constant change evidenced in the Green River water course from day to day and from year to year.

An extensive discussion of various phases of river changes, of property owner rights, and desires, was participated in without agreeable results.

It was proposed by motion of L.L. Taylor, Commission of Grand County, that Grand and Emery Counties' Commissioners engage Engineer J. Richardson Roalf to survey and establish a permanent line, and that the State be asked to accept the Engineer's work, and that the line be marked or monument, and that the same be known as the reestablished legal boundary line between Grand and Emery Counties at this point.

It was proposed that both counties share equally in the cost of this survey, and that a plat of said survey be submitted to the State Land Board at the Salt Lake City, Utah.

The motion was seconded by Clinton N. Wakefield of Emery County, and carried by a unanimous vote of members present.

A motion for adjournment of the meeting was made by G.O. Patterson, seconded by Dale L. Parriott, and carried unanimously in a vote of members present.

Dear Sir:

In response to your inquiry relative to the interest rate on tax anticipation notes that Emery County will have to offer this fall, we wish to advise that we shall be willing to carry these notes at two percent interest with Emery County preparing and typing the forms incident to these notes. I might mention that we have a form as prepared by our attorney which we shall be willing to loan from which to originals may be prepared.

If we are favored with this business, I would suggest that whoever prepared that papers do so in advance because it takes considerable typing to prepare these forms above mentioned. This, so that the forms will be prepared when you need the money.

Trusting that this rate will be acceptable to the Commissioners and with our sincere desire to serve Emery County, we remain,

Yours very truly,

Mr. Rex Nelson
Emery County Assessor
Castle Dale, Utah

Dear Mr. Nelson:

At the meeting of county assessors and county commissioners held July 21 at the Newhouse Hotel, it was decided to appoint committees of assessors and county commissioners to work in cooperation with the tax commission in the development of a plan for the valuation of property for the year 1948.

We are enclosing a list of the committees. We would like to have every assessor appear on one or more committees, according to his desires and according to the limits of time. We would also like to have at least one member of each board of county commissioners appointed to some committee and, if possible, we should like to have all three members of the board of county commissioners serve as committee members.

We should appreciate it if you will present this matter to the board of county commissioners of your county at its next meeting and send us the preferences that you and the members of the county at its next meeting and send us the preferences that you and the members of the county board may have for service on these committees. While we cannot, of course, guarantee that each committee assignment will be as requested, the purpose of this action on our part is to make the assignments as nearly as possible in accordance with the member's stated preference. Each committee should be fully organized, and in those cases where preferences have not been noted should be fully organized, and in those cases where preferences have not be noted for certain committees, it will, of course, be necessary for us to make appointments to such committees.

Very truly yours,
STATE TAX COMMISSION

O. Donald Miles, Engineer District No. 4 of the Utah State Road Commission, Floyd Brinkerhoff, Supt. South Emery State Road, Perry Wakefield, Supt. of North Emery State Road, and Oliver Cramer, Nelson Alger, Lavar Atwood and Frank Jones, all of Elmo, Utah, met with the Board of Commissioners of Emery County in an effort to affect an agreeable settlement of a permanent highway which will serve both communities and eliminate north branch of Cleveland loop and the Cleveland Elmo branch which are parallel State Highway routes joining Highway 10 on Washboard Flats.

District Engineer, O. Donald Miles proposed that a survey for new alignment of a route north from Cleveland to Elmo to Highway 10 which would serve both communities with little increase of distance of present route prepared. The present policy of the State Road Commission is "to serve all Communities with State Highway facilities with greatest economy, and without jeopardizing community welfare," said the engineer.

It was the consensus opinion of the Committee and Commission to accede to the District Engineers recommendation of one new alignment of a dual highway for Elmo-Cleveland communities. It was further proposed that after survey was placed on paper, that the Cleveland Community as objectors, be interviewed and asked to endorse action of this meeting.

A written Complaint of Chloe R. Call was filed with the Board of Commissioners of Emery County, Dated at Orem, October 29, 1947, protesting the increase of assessed valuation of 1947 of the Willow Bend Ranch and a similar raise of taxes.

Assessor Rex Nelson was called in to justify the indicated raise on property. He informed the

Commission that the previous years assessed values were based on reported unimproved or uncultivated land, but that the 1947 appraisal was based on improvements made but unreported until 1947. It was proposed that the Treasurer inform the Complainant of the reappraisal and the increase in value made necessary by appraisal. The Treasurer's Deputy wrote Mrs. Call as of November 4, 1947 that the Commission went on record as supporting the increased assessed valuation as indicated by Assessor Rex Nelson's findings. Done by a unanimous consensus vote of the Board of Commissioners.

COUNTY ROADS

Letter to District Engineer:

County Clerk's Office

January 7, 1948

O. Donald Miles, Engineer
Utah State Road Commission
District #4
Price, Utah

Dear Mr. Miles:

The Emery County Commission would appreciate receiving a report of the action that has been taken by your department of the State Road Commission on the re-alignment of Highway #10. They are especially interested at present concerning the Cleveland Elmo district.

As soon as the material on the new survey is available they would appreciate receiving the information concerning it as it will assist them to plan the road projects for the County for the year 1948.

By consensus opinion they proposed that the State Patrol which blades the State Highway Huntington-Mohrland to Hiawatha and the connecting County Unit on this road and the County Patrol blade the north branch of the Elmo to Highway 10 in order to avoid having equipment, State and County, cover long distances of unnecessary travel.

Should this proposal meet your approval kindly inform them concerning it.

Very truly yours,

The above building is priced at Price, Utah and we may make shipment from our Denver plant in from three to four weeks after receipt of order.

The installation costs on this building will be approximately \$175.00 exclusive of any concrete floor or foundation you might require.

We are enclosing a bulletin on our building, giving the specifications and appearance of our building. You will note that this is a standard straight wall type building with a pitched roof and lends itself to other buildings in the neighborhoods.

To give you a bid on the complete setup for the building, including the concrete floors, it would be necessary for us to visit the site and see the local conditions and price of the aggregate, etc. at Castle Dale. The \$175.00 erection figure listed above was based upon your help in doing the work, under the supervision of a foreman but does not include any overhead, traveling expense, etc. required if our company did the erection. However, our erection cost, including everything, on your concrete foundation, would be approximately \$300.00

We will be very glad to meet with your Commission and discuss the aptitude of our building to meet your needs. Please feel free to call upon us for any additional information or costs on other size buildings.

Letter of James P. McCune, Attorney at Law, 53 North Main Street, Nephi, Utah. May 14, 1948, hereafter copied was submitted to the Board of Commissioner.

It was found that legal advise would be required to institute correction of certain deed awarded Wayne G. Smith of Green River. The Commission therefore, referred the letter to County Attorney R.R. Jewkes to obtain legal advise of procedure in the aforementioned correction made necessary by error in deed. The following letter will give information necessary in making proper correction:

Board of County Commissioners
Emery County
Castle Dale, Utah

Gentlemen:

When in Castle Dale yesterday I checked various records of your county regarding property purchased from Emery County by Wayne G. Smith of Greenriver in 1939 and which was attempted to be deeded to Mr. Smith by County Deed dated July 30, 1943. I find that there are some discrepancies in the property sold to Mr. Smith and property deeded to him, and it appeared that some complications may arise.

By Commissioners minutes of December 4, 1939, Minute Book D at Page 525, various property was sold to Mr. Smith for the sum of \$1,240.00. Also by Commissioners Minutes of January 2, 1940, Minute Book D at Page 533, additional property was sold to Mr. Smith for the sum of \$160.00 and it was provided that all of the property would be handled under on contract totaling \$1,400.00. The last minutes entry included the East half of the Southeast quarter of Section 9, and the West half of the Southeast quarter of Section 10, Township 18 South, Range 14 East. However, the deed to Mr. Smith in 1943 which is recorded in Book A-11 of Deeds at Page 438 and also Correction County Deed dated November 4, 1936 and recorded in Book A-12 of Deeds at Page 626 convey only the Southeast quarter of the Southeast quarter of Section 9, and fails entirely to convey the West half of the Southeast quarter of Section 10. The Correction County Deed was prepared by me in order to make the descriptions in the original County Deed more definite and certain. Before preparing the Correction Deed I had Mrs. Young, the County Recorder, check with the Clerk's office to see that the correct property was included in the original County Deed, and she was informed that the descriptions were correct.

Mr. Smith can demand that the County fulfill it's contract and convey all of this property to him, but I now find that the West half of the Southeast quarter of Section 10 and also the Northeast quarter of the Southeast quarter of Section 9 has been sold to one Gust Kiahtipes and conveyed to him on February 9, 1945, by County Deeds recorded in Book A-12 at Pages 139 and 140. This and adjacent property purchased by Mr. Smith has been deeded to Mr. Bent R. Bryan of Nephi, and it is very important to Mr. Bryan and other parties interested that he has a deed to this property.

Will you please advise Gust Kiahtipes of the facts in the matter, and obtain a quit claim deed from him, and then convey the property to Mr. Smith in accordance with his contract. We are very anxious to get this matter straightened out without delay, and I will appreciate and early reply form you as to what you can do.

Very truly yours,

Letter of Ellis C. Freed, representative of the Freed Coal & Coke Company of 47 South, 2nd East, Salt Lake City, Utah was brought before the Commissioners of Emery County.

It was the consensus opinion of the Board that Mr. Freed had misrepresented tax statement for the years 1945, 1946 and 1947, in neglecting to include penalties, interests and costs in redemption and settlement of delinquent taxes.

The Clerk was instructed by the Board of Commissioners to return the Freed Coal and Coke Company check in the amount of \$3,591.55. because it failed to include the penalties, interests and costs as provided by law in the settlement of delinquent taxes.

Mr. Freed's Letter:

The Commissioners, Emery County
Castle Dale, Utah

Freed Coal and Coke Co.
c/o Freed Motor Company
47 South 2nd East
Salt Lake City, Utah
May 17, 1948

Gentlemen:

In answer to you letter of May 7, which has just reach me:

To say that I was surprised is putting it mildly, for when I was in Castle Dale and saw Mr. Wimber at that time I asked him if he was chairman of the Board. He informed me that he was. I therefore showed him our taxes for 1945, 1946 and 1947, amounting to \$3591.55, which is a raise over our taxes of 1944 of almost \$1,000. I explained that I thought this raise was entirely out of proportion, and made him the proposition to pay him \$3591.55 without any penalty, interest, or costs of any sort. He agreed to this if I would have the check at your office before April 30, which I did; and I also agreed, as per my letter of April 26, to pay the 1948 taxes when they were due. At no time was I asked to get a complete statement from the treasurer.

As I have now kept my word, I certainly expect that the Commissioners of Emery County will keep theirs. I made a special trip to see them in regards to these taxes and I do not see why they are trying to put me to unnecessary expense at this time.

I trust that you can see my side of this picture.

Yours very truly,
FREED COAL AND COKE COMPANY

Freed Coal & Coke Co.
c/o Freed Motor Company
Att. Ellis C. Freed
47 South, 2nd East
Salt Lake City, Utah

Dear Sir:

Your letter of May 17, 1948 was brought to the attention of the Board of Commissioners at their regular meeting held May 29, 1948. In answer will say that it was the intention and the unanimous opinion that they did and intended that you ask the Treasurer for a complete statement of your Company's 1945, 1946 and 1947 taxes, together with costs, interest and penalties and nothing short of that is acceptable.

They accepted your offer under the impression that the amount you quoted did include the taxes, penalties and costs and would bring your taxes up to date. You will therefore find herewith enclosed your check #8499 for \$3591.55 returned as an insufficient amount to pay for your taxes to Emery County for the years 1945, 1946 and 1947.

It has been the custom of your Company to allow your taxes to become delinquent and then pay them without paying interest penalties and costs, but as I explained to you in my last letter that the policy of the present Board of Commissioners is that no redemptions shall be allowed for less than the legal collection costs and taxes your Company cannot be extended more courtesy than is allowed other tax units of your class.

Yours very truly

Madsen of Mr. Pleasant, Utah, for the years 1945-46 and 47 in the amount of \$140.88 be allowed and that County Treasurer, Hans F. OFFICE OF COUNTY ATTORNEY
March 16, 1948

MEMORANDUM TO:

Board of County Commissioners
Emery County, State of Utah:

Re: Request for refund of
illegal tax collection
on S ½ of Sec. 22-15-6
S.L.M. by Mrs. John K.
Madsen, Mr. Pleasant, Utah

On Nov. 2, 1939 John K. Madsen deeded to the United States, among other properties, the "S ½ of Sec. 22, Township 15 South, Range 6 East, S.L. Meridian", which deed was recorded in the office of the County Recorder, Emery County, Utah on Nov. 3, 1939, Book B-10 of Deeds at page 113.

Prior to the date of the above mentioned deed, John K. Madsen deeded the above described property to Allen M. Boyce and others, (date of deed Sept. 10 1936), which deed was not recorded in Emery County until December 22, 1944. By virtue of the deed mentioned in this paragraph the Recorder of Emery County made out a card showing title of the above captioned property in the name of Boyon and other which included Mrs. John K. Madsen, who has paid taxes on said property belonging to the United States as follows:

1945	taxes paid	\$43.94
1946	do	43.66
1947	do	53.28
		<u> </u>
		\$140.88

While the error is primarily with the taxpayer in not having called the attention of the Recorder to actual ownership of the property in question, the taxpayer was not the owner (legal record owner) of the property for the period 1945 to and including 1947, and is entitled to the refund of \$140.88. For matters of this nature it takes qualifications required of an abstracter and Attorney to protect the interests of taxpayers and I place the predominant cause for the illegal tax on the taxpayer, but the County must pay according to the Statutes under which we are administering County affairs.

I recommend payment to Mrs. John K. Madsen of a refund of \$140.88.

Respectfully,

/s/ R.R. Jewkes

The Freed Coal and Coke Company, c/o Freed Motor Company, 47 South, 2nd East, Salt Lake City, Utah submitted a letter as follows:

Freed Coal and Coke Co.
c/o Freed Motor Company
47 South 2nd East
Salt Lake City, Utah
October 18, 1948

The Commissioners, Emery County
Castle Dale, Utah

Gentlemen:

In reference to the taxes of Freed Coal and Coke Company for the years 1945, 1946, 1947 and 1948, I would like to make the following offer which I trust will be acceptable.

In the year 1944, our taxes were \$879.05. I am mentioning this for your information.

Below you will find our taxes showing the increase over the year 1944. You will note that the amount is almost double.

<u>Year</u>	<u>Amount</u>	<u>Increase</u>
1945	\$1054.29	\$175.54
1946	1156.28	278.78
1947	1380.98	501.93
Total	\$3591.55	\$956.25
1948	1526.88	647.83
Total	\$5118.43	\$1604.08

The proposition I wish to make is as follows. I will send you a check for \$1526.88 which is the year 1948 and upon which there is no penalty or interest. I will also send you a check for \$3591.55 which is the actual taxes for 1945, 1946, and 1947. In addition to this, I will send you a check for \$381.57 which is interest and penalty on the three years quoted above. This makes a total of \$5500.00, the actual taxes being \$5118.75 and the penalty \$381.57.

I am endeavoring to settle these taxes at this time and would appreciate your consideration in this matter. I think the increase is entirely too high on this land and if this offer is not acceptable, I think I will be compelled to let at least 2,000 acres of the land revert back to Emery County, thereby reducing my taxes to around \$2500.00.

I trust you will give this your earnest consideration and let me hear from you at the above address, and I will immediately send you a check for that amount.

I remain,

Yours very truly,
FREED COAL AND COKE COMPANY

Dear Mrs. Broderick:

This is to advise you that your application for Veterans Exemption during the year of 1949 on taxes cannot be allowed by the Board of Commissioners of Emery County for this year.

The law requires that certificate of exemption signed by the State Veterans Administration be filled in the Clerks Office on or before May 1st. of each year, and no Veterans Exemption can be allowed after equalization in each year. However, the Board of Commissioners of Emery County will allow you \$50.00 from the Poor Fund which may be applied on your taxed for this year to meet the

emergency that has arisen in you family.

It is our advice that if your husband, Mr. Clinton Broderick, has become incapacitated through ill health, that he apply to the Veterans Administration for Tax Exemption next year and the years succeeding. These certificates showing the amount of exemption from said administration should be presented to the Clerk offices next year and the years succeeding. These certificates showing the amount of exemption from said administration should be presented to the Clerk's Office each year on or before May 1st.

Kindly advise us if you desire the above named help as soon as possible.

Re: Property, Beginning SW cor. Sec. 15-
17-10; thence N. 100 rods; E. 80 rds;
S. 100 rods; W. 80 rds; to beg. Sold
for taxes.

Dear Mrs. Johnson:

Your letter of December 21, 1949, addressed to Emery County Board of Commissioners has been referred to this office for consideration and reply.

As the County records reveal, in May 1938, you redeemed from sale all taxes then delinquent against the above described property; on November 30, 1938, the 1938 taxes became delinquent and the 1938, 1939, 1940, and 1941 taxes were not paid, but it is understood that the County has granted you veterans widow exemption for 1941 and subsequent years. This exemption, however, would have no bearing on Liability for taxes for the years. This exemption, however, would have no bearing on account of which nonpayment, the above described property was sold to Emery County on May 25, 1943 and sold by the County to one William Winder of Cleveland, Utah on April 22, 1944.

I have examined the Taxation laws of the State of Utah and have applied them to the circumstances of this case and find that the procedure employed by the employees of the County and the Commissioners in handling the sale in this case is regular and in accordance with the law as enacted by the Utah State Legislature.

We sincerely regret, in many cases, to be compelled under the law to dispose of property on account of delinquent taxes, but no other course is open to us but to perform our duties in accordance with our oath of office.

Your address on the Assessment Rolls, during the years, 1938, 1939, 1940 was Chester and Carrie Johnson, Los Angeles, California. If you did not receive a tax notice for any of those years, it was your duty as a citizen to provide the Treasurer's or Assessor's office of a full and complete address. We have hundreds of notices returned each year because of taxpayers not keeping the County informed of addresses.

I should like, very much, to be helpful to you in any way I can in the matter and suggest to you that you write to Mr. Winders at Cleveland, explaining your situation and offer to reimburse him for any expense to which he has been put in purchasing the property, provided he will give you a quit claim deed thereto. You might suggest that he talk to me about it when he is in Castle Dale sometime.

Very truly yours,

R.R. Jewkes,
Emery County Attorney

It was proposed by a motion of Clinton N. Wakefield that the County Officers be awarded \$40.00 each, payment of expenses to the Utah County Officials Convention, to be held on the 18th, 19th, and 20th of January 1950, from the Advertising and Exhibits Fund, seconded by Darwin Jensen and a unanimous vote of the Board of Commissioners.

Salt Lake Meridian, containing 80 acres. Number 382-x, Assessed valuation of \$182.00, taxes \$6.57, also

All of the West half of the West half of the Northeast quarter of Section 10, Township 16 South, Range 16 East. Salt Lake Meridian, containing 80 acres. Number 382-xx, valuation \$182.00, taxes \$6.57, and

Attorney Sheya informed the commissioners that the above described property had been erroneously assessed in as much as said property was unpatented ground and was therefore not assessable by Emery County Assessor. He further petitioned that all back taxes be remunerated to the afore named tax payers together with the 1950 taxes. The clerk, Fred W. Reid, protested the return of the back taxes due to the fact that all taxes collected by Emery County, had been distributed to the various funds and tax units within Emery County, and he further pointed out that protest had not been named by the defendants or by the tax payers for preceding years, and therefore that a reimbursement of payment of back taxes would entail more expense than the taxes themselves would be worth. It was therefore proposed by the Board of Commissioners that he petitioners attorney be allowed an erroneous tax exemption for the year 1950, and that previous taxes should remain in the various funds as now distributed. Said petition was passed by motion of Darwin Jensen, seconded by Clinton N. Wakefield, and a unanimous vote of the Board of Commissioners.

The Board of County Commissioners of Emery County met in a Regular Session in the Commissioners Room in the Courthouse at Castle Dale, Utah, at 10:30 A.M.

There were present Chairman George F. Young, Commission member Frank J. Hatt and County Clerk David N. Jewkes. The absence of a third Commission member being due to the fact that a vacancy had occurred as of January 1st, 1951, at 12:01 P.M. o'clock, because of the death of Glen Killpack of Ferron, Utah, who had been duly elected to serve as a two year Commission member at the polls on November 7, 1950, in the General Election.

He also advised Mr. Young, that the State Road Commission would not assume any responsibility for persons using the bridge in its present condition, and that if Emery and Grant Counties would either repair or wreck the said bridge, the State Road Commission would disclaim any ownership or interest and turn the whole structure over to the two counties mentioned above to do with as they see fit. May 28, 1951

Treasurer of the State of Utah
State Capitol Building
Salt Lake City, Utah

Re: Allocation of money received from the
United States government through the
Federal Leasing Act.

Dear Sir:

Utah Code Annotated, 1943, Chapters 86-1-49, as amended by laws of Utah, 1945 relating to the allocation of money received from the United States government through the Federal Leasing Act, provides as follows:

"Ninety per cent of all moneys received from the United States under the provisions of the act of Congress of February 25, 1920, known as "The Leasing Act" (41 Stat. 450) shall be used for the support of the public schools of the state as in said act of congress provided and shall go into the uniform school fund, and ten per cent thereof shall be allocated to the county in which the minerals were produced, to be used by such county for road purposes under the direction of the county commission."

Emery County records indicate no monies have ever been distributed by the State of Utah to Emery County pursuant to the above mentioned statute.

Reference is hereby made to the opinion rendered by the Honorable Clinton D. Vernon, Attorney General, under date of February 21, 1951, No. 1449, and addressed to Honorable Donald T. Adams, Utah State Senate Building, which indicates the counties are entitled to share in the money received by the State of Utah, under the Federal Leasing Act.

In consequence whereof, the County of Emery, through its County Commission, does hereby apply for the amount of money which should come to Emery County under the provisions of the above referred to Statute.

Leo Anderson, Cleveland; Ralph Young, Huntington; Darrell and William Rowley, Huntington; James Hunt, Lawrence Christensen, Ferron; Jesse S. Tuttle, Castle Dale; Ralph Lundy, Cleveland, Charles Mortensen, Elmo; Dean Atwood, Cleveland, James Nielsen, Lawrence, Melvin Staker, Huntington, Harvey Oviatt, Elmo; Bryant Jewkes, Orangeville and Lloyd Lott of Huntington.

Those complaining from the Cleveland, Elmo District, said much of their land had been classified in the higher bracket, because of the estimated water shares of 8 shares per acre set by the State Authorities, was far under the amount of shares of water actually needed to irrigate their land, and felt that the valuation should be reduced because of this fact. The estimate of these farmers of water needed, ranged from 12 to 15 shares per acre. The Commission members advised these men that a letter would be written to the proper authorities concerning this problem and if their valuations could be reduced in this way it would be done.

All other parties feeling that their land had been reclassified to high were assured that Assessor, Rex Nelson, would go over the land and reclassify any and all land which proved in his best judgment to be valued too highly. Mr. Nelson suggested that he and the deputies who helped classify said land, would go over all complaints and in any case where it was evident of too high classification the adjustment would be made.

IMPROVEMENTS VALUATIONS--BUSINESS BUILDINGS:

Mr. William Justensen, of Orangeville: Mr. Darrell Rowley, Huntington: and Mrs. Ray Webb of Price, Utah, protested to the Commission members that the valuations placed on business buildings owned by the above named parties were too high in their estimation, and requested that a protest be filed with the State Tax Commission to this effect, and that a man from the State Tax Commission be sent out to recheck the buildings and valuations of the same. These parties were assured by the Commission that this would be done at once and instructed the Clerk, David N. Jewkes, to dispose of this matter at his earliest convenience.

Mr. Melvin Staker had the same complaint concerning the valuation on his home in Huntington, and was promised that his complaint would be handled the same as those mentioned above.

Photographs of Emery County:

Mr. L.T. Hunter, advised the Commission of the cost of some pictures which he had been previously authorized to obtain for the County and suggested the idea of ordering plastic cases in which the prints could be kept individually for protection against heat and on which each could be labeled. This suggestion was unanimously approved by Mr. Hatt and Mr. Killpack. Mr. Hunter also advocated taking more pictures of the San Rafael and Deseret Country and was assured by the members present that they would cooperate in any reasonable way with any project which would help advertise Emery County.

Claims from the following funds were approved by a unanimous signatory vote of the Commission: General Poor, Hospitalization, Agricultural Agent, Advertising and Exhibits, Weed Control, County Road and Class "B" Road Funds.

ATTEST:

CHAIRMAN:

Green River, Utah
June 4, 1951

The Board of Emery County Commissioners, acting as the Board of Equalization of Emery County, met in a scheduled session in the City Hall at Green River City, at 11 o'clock A.M. Those present were Chairman, Frank J. Hatt, members George F. Young, and Ray Killpack, Assessor, Rex Nelson, Attorney, Mack V. Bunderson and Clerk, David N. Jewkes.

ALBERT WEBER:

First to meet with the Commission was Mr. Webber, concerning a parcel of Real Estate which he had purchased from Mr. George Franz some year previous to date and which had been deeded to Mr. Webber by Mr. Franz at the time of purchase and on which Mr. Webber had paid all taxes and had the same recorded in his name. The same described real estate had in some way been erroneously entered in the Tax Sale Record of Emery County in Mr. Franz' name and had been advertised for sale by Emery County on May 26, 1951. Upon receipt of a letter from Mr. Franz to Emery County Treasurer, Nephi L. Williams, received some days before the above mentioned sale, Mr. Franz advised Mr. Williams of the sale of said Real Estate to Mr. Webber and disclaimed ownership of any land whatsoever located in Green River, Utah. The entry of said parcel of Real Estate in the Tax Sale Record was marked questionable and therefore not offered for sale. Clerk, Jewkes was instructed by the Commission to mark the record of this parcel of land in the Tax Sale Book "Erroneously Entered", and thereby clear the said record.

MR. JOHN D. BYERS:

Mr. John D. Byers, of Green River, Utah, met with the Commission and protested the assessment on a building owned by Mr. Byers, located in Green River City, and was assured by the members that any justifiable adjustment would be made by Assessor, Rex Nelson.

BEIDER AND VETTERE:

Mr. Logan Bedier and Mr. John Vettere, met with the Commission and requested that Assessor Nelson accompany them for the purpose of looking over their farm land, which Mr. Nelson and Mr. Ray Killpack did for the purpose of reclassifying said farm land if the same proved to be unreasonably high.

MRS. ANDY MOORE AND FRANK J. HATT:

Mrs. Andy Moore and Mr. Frank J. Hatt, both owning land on the San Rafael River, felt that their land had been too highly addressed, but when assured by Assessor, Rex Nelson, that their valuations were only about par with the rest of Emery County, they withdrew their complaints.

MRS. LILLIE DENNY:

Mrs. Lillie Denny, of Green River, met with the Commission regarding taxes on land which was advertised for sale on May 26, 1951, but which owing to a misunderstanding was not offered for sale. Mrs. Denny asked for relief of paying the above mentioned tax, but was denied. Upon the advice of Attorney, Mack V. Bunderson, who contended that Mrs. Denny failed to meet with the Board of Equalization at the property time to protest, and also failed to execute a bond sent her by Assessor Nelson, who also advised her by letter of the date of the meeting of the Board of Equalization, affecting the above mentioned tax. She was then advised that if the full amount of tax, penalties, interest and costs was not paid by June 15, 1951, the Auditor would have to stamp on the Tax Sale Record of Emery County that said property involving the above mentioned tax, would be sole to Emery County.

MRS. PRESTON NUTTER:

Mrs. Preston Nutter, and daughter, and son-in-law, advised the Commission of the fact that in reclassifying land belonging to the Nutters, a mistake had been made in as much as the land classified as farming land had been placed on grazing land. Mr. Rex Nelson rectified this error and explained the reclassification method used on all land in Emery County to the satisfaction of the parties concerned.

CANYON CLUB:

Other business taken up by the Commission concerned the Canyon Club, near Orangeville, Utah. Mr. Young explained that he had received many complaints about said Club, one of which was not closing at the proper time and another that of selling beer on Sunday. After some discussion it was decided unanimously that a County Business License be denied said Canyon Club, until such time the operator of the same agree to meet with the County Commission and comply with the law and Ordinances governing such places of business.

ELMO B AND C ROAD PROJECT:

The proposed Highway and Bridge North of Elmo, to be built with Class "B" Road Funds, was discussed at some length, and Right-of-way problems seemed to be the big obstacle of starting said project. The Commission agreed unanimously that they would rather pay a reasonable sum for the right-of-way on which a straight road could be constructed than to have to build a winding road on right-of-ways given to the County. It was also decided that a man be sent to Elmo and post a "Cross at your Own Risk Sign" at each end of a bridge now in use by farmers in and near the Community, said bridge being in very bad condition.

Tony Sylvagni:

Mr. Hatt agreed to have some gravel hauled on the road of Tony Sylvagni, near Woodside, to make said road passable in stormy weather.

NATIONAL CONVENTION:

It was unanimously agreed that the sum of \$200.00 be allowed each County Official attending the National Convention of County Officials, to be held in Milwaukee, Wisconsin, in the month of July, and to compensate the members attending further if said \$200.00 was not enough to cover expenses.

On motion of George F. Young, seconded by Ray Killpack, and voted aye, by all members, the meeting was adjourned.

ATTEST:

CHAIRMAN:

Castle Dale, Utah
June 25, 1951

A Regular Meeting of the Board of Emery County Commissioners, who also serve as the Emery County Board of Equalization was held in the Courthouse at Castle Dale, Emery County, Utah, at 10 o'clock A.M. Present were Chairman, Frank J. Hatt; members, George F. Young and Ray Killpack; County Attorney, Mack V. Bunderson, Assessor, Rex Nelson and Clerk David N. Jewkes.

COMMITTEE FROM MOORE, UTAH

A Committee representing farmers of the Moore, Utah district; namely, Mr. Clifford Snow, Mr. Carlyle Crawford, Mr. Stanley Allen, Mr. Neldon Olsen and Mr. Sorenson, met with the Board of Commissioners and Equalization, and with Mr. Snow acting as spokesman for the group, expressed themselves of the fact, that to their belief all or nearly all land in their vicinity had been classified in too high a bracket owing to the fact that according to them it takes much more water to irrigate the land in question, than the amounts used by the men reclassifying the land; said shares or amounts used being set up for the purpose by different organizations of the State. After some discussion by all parties concerned, on motion by Carlyle Crawford, seconded by Mr. Sorenson, that the land in question be reclassified using twenty shares of water of Rochester Canal Company, per acres for Class "A" land, and all other lands to be classified as grazing land according to its condition and according to what is grown thereon. This was agreed upon by the Commission and the Assessor subject to the approval of the State Officials participating in the Reclassification of Utah lands.

MRS. EVA CHRISTENSEN:

Mrs. Eva Christensen, a widow of Ferron, Utah, met with the Board of Commissioners and Equalization, and asked for reduction of valuations on property owned by her. Mr. Hatt explained that there were no longer any widows abatements and to meet with the Commission at a later date when taxes were due and that at that time the Commission would do what they could to help her. Assessor Nelson, did however reduce the Improvements on her home from \$900.00 to \$795.00

Mrs. Clara Seely:

Mrs. Clara Seely, Orangeville, Utah, met with and asked the Commission for reduction of valuation of Real Estate owned by her and after explaining that there was no water right with the said real estate, Assessor Nelson reduced the valuation from \$550.00 to its former valuation of \$400.00.

Others to meet with and ask for reclassification of land of the Board, were Clinton Wakefield of Huntington, Norman Anderson of Huntington, Loran and Wilford Dalton, Cleveland, Utah, Herbert and Leona Defreiz, Huntington, Utah, Mrs. Wm B. Stokes, Cleveland, Utah; Harold Sorenson, Ferron, Utah; Willard Miller, Castle Dale, Utah, Howard R. Staker, Huntington; Vaughn and Elizabeth Gordon, Huntington; A.L. and Olive Truman, Huntington, Utah; Alvin Johnson, Orangeville, and Hyrum Rasmussen, Castle Dale, Utah. All of the persons were assured by Assessor Nelson and the Board that the land in question would be rechecked by Mr. Nelson and the men who did the reclassifying and adjustments, and if the same proved to be justifiable in the opinion of Assessor, Nelson.

N. HOWARD JENSEN:

Mr. N. Howard Jensen, met with the Board of Commissioners regarding the property located in Emery County State of Utah, and which Mr. Jensen brought form the Board of Emery County Commission. By agreement of a letter between himself and then acting Clerk-Auditor of Emery County. In this correspondence between himself and the Auditor at that time Mr. Jensen, explained that he received from said Auditor a statement which contained all taxes, interest, penalties and costs due on the above mentioned property up until the time of purchase by himself. He also showed the Commission members a letter which stated clearly that the description of the Real Estate involved in said sale included all land of the particular parcel Mr. Jensen wished to obtain. This stated fact proved to be erroneous when a later sale by the Board of Emery County Commissioners, included some 32 feet of that property which should have been included in the sale to Mr. Jensen, sometime previous. This later sale was consummated by and between Emery County of the first part and Mr. Que Sorensen of Emery, Utah, party of the second part. A bid for the real estate by Mr. Sorensen, in the sum of \$49.16 was accepted by the Commission, said bid included all taxes, interest, penalties and costs on said property up to date of sale to Mr. Sorensen. This later sale was consummated at a Regular Commission meeting held on January 31, 1950. Sale was approved by the County Attorney R. Reid Jewkes, February 7th, 1950. Deed issued as of the same date as approved by the Attorney, Jewkes. Description of the Real Estate sold to Mr. Sorensen is as follows: Beginning 79 rods West of the South East corner of Lot 2 Fractional Block 4, Emery Townsite; thence West 32 feet; thence North 13 rods; thence East 32 feet, thence South 13 Rods to beginning. These facts found in Commissioners Minute Book E, on page 409. According to the letter, now in Mr. Jensen's possession, the above described parcel of real estate, was without doubt excluded from the property bought by him sometime previous to the sale to Mr. Sorensen, but positively should have been included. County Attorney, Mack V. Bunderson, expressed his opinion that the later sale was undoubtedly erroneous, and made an offer to contact Mr. Sorensen and explain to him that the property which he (Mr. Sorensen) had purchased from the County on January 31, 1950, should have been sold to Mr. Jensen at some previous date, it having been excluded from the property description at the time of sale to Mr. Jensen. Mr. Bunderson's offer was unanimously sanctioned by the Board of Emery County Commissioners and Mr. Jensen was assured that everything possible to straighten out the situation would be done.

-ooOoo-

Persons applying for a recheck on land classification after hearing Mr. Hatts explanation that all taxes on land in the County would be raised a certain percentage regardless of anything the Commissioners could do, left the meeting without promise of an adjustment. Those appeared were: Lester Collier, Andrew C. Hansen, and Reed E. Larsen, of Emery, Utah, E. Floyd Jorgensen, Castle Dale, Utah.

-ooOoo-

George Earl, of Huntington, Utah, met with the Board of Equalization, regarding the valuation of stock in his store at Huntington, Utah, and implied that Assessor Nelson, had assessed his stock too high, basing his opinion on an Inventory report of stock on hand as of January 1st, 1951, and also claimed that there was no sense in him making an inventory report each year if Mr. Nelson paid no attention to the amounts entered. Mr. Nelson expressed the opinion that Mr. Earl's Inventory was entirely out of proportion with other businesses of the same size and said he believed his estimated valuation was more accurate than Mr. Earls. Mr. Nelson's opinion was unanimously upheld by the Emery County Board of Commissioners and Equalization.

-ooOoo-

Mr. Thayne Wright, the Welfare Director of Emery County, advised the Commission, that Emery County had been held responsible for Hospitalization of the following persons, each name being followed by the amount of their bill from the Price City Hospital: Mrs. Bert Hadfield - \$375.05; Lynie Pearce - \$61.40; Mrs. Florence Hall - \$422.75, and Herbert Henrie - \$30.00. From the Dragerton Hospital, for Mrs. Shelia Cropper - \$204.45. Also a bill of \$67.50 from the Salt Lake County General Hospital for Garry Faucett, an infant of Green River, Utah, were presented by Clerk, David N. Jewkes. The bills for Mrs. Cropper and infant Faucett were approved for payment by the Commissioners, and Clerk Jewkes, was requested to write to the Price City Hospital and ask for a reduction on the bills of that Institution.

On motion of Ray Killpack and seconded by George F. Young, and voted Aye, by all members, the amount of \$150.00 was agreed upon to be allowed any one person for Hospitalization in the future. With exception in regard to extreme needs.

Mr. Wright, also advised the commission that in his opinion, Mr. J.B. Johnson, the present acting Juvenile Officer for Emery County, as not being a capable person, in the handling of juveniles. Mr. Wright contended that Mr. Johnson invariably used the wrong approach with youngsters; always assuming them guilty, never giving them the benefit of the doubt, and also in his methods usually made the Juvenile afraid of him. Mr. Wright expressed the thought that in nearly all cases the confidence of any Juvenile must be obtained by the official in charge and not assumed guilty before having a fair trial. He also expressed his doubt as to the validity of Emery County hiring Mr. Johnson, to act as Juvenile Official, and said this should come under the head of the Sheriff's office. He further stated that he had nothing personal against Mr. Johnson, but does believe that Mr. Johnson is a misfit in his present position. Attorney, Mack V. Bunderson's opinion is that the Sheriff should be allowed to hire a special Deputy for handling Juvenile cases or be allowed additional compensation for handling them himself. The subject was discussed at some length by the Commission, but no definite action taken.

-ooOoo-

Mr. Leonard Judd, of Dragerton, Utah, whose property was sold to Emery County in the Tax Sale of May 26, 1951, advised the Commission through the Clerk, David N. Jewkes, that owing to the fact that he had moved several times recently he (Mr. Judd) had not received the Tax Sale Notice in time to redeem his property before the date of the Sale and wished to know if there were any ways it would be redeemed without paying the costs of a County Deed and Recording Fee. Mr. Bunderson ruled that Mr. Judd, would have to follow the usual procedure of such cases inasmuch as said sale had taken place and the Auditors Stamp had signified property was sold to the County as of May 26, 1951. Attorney Bunderson's decision was unanimously upheld by all members of the Commission.

-ooOoo-

Mr. Charles O. Butchertie, of Salt Lake City, and Auditor for Emery County, for the past two years, made application orally to the Emery County Board of Commissioners for permission to continue the Audit duties for the next two years, requesting that he be allowed the privilege of quarterly Audits instead of twice yearly stating that this would be more expensive but more efficient and would also tend to keep new officials of the County in line. On motion of George F. Young, and seconded by Ray Killpack and voted Aye, by all members, Mr. Butcherite's proposal was unanimously accepted.

CAT AND PATROL OPERATORS:

On motion by member George F. Young, seconded by Ray Killpack and voted Aye, by all members, it was decided that the operators of patrols and power shovels and caterpillar machines of Emery County Road Department would be paid at the rate of \$1.12 ½ per hour, beginning July 1, 1951. This schedule replacing the old rate of \$1.00 per hour. Hatt, Young and Killpack, voting, Aye!

-ooOoo-

Upon the advice of Attorney, Mack V. Bunderson, the Board of Commissioners instructed Clerk, Jewkes, to write one, Renold Pendor, of Salt Lake City, Utah, to the effect that Emery County would pay Mr. Pendor the sum of \$25.00 for the return of a County deed which Mr. Pendor had been issued for land sold him which later proved to be an erroneous sale.

Commissioners, Frank J. Hatt, promised the Commission that he would investigate the request of Pappas Brothers, of Price, Utah, for a culvert on a road near Mound, Utah, in Emery County.

WEED CONTROL SUPERVISOR:

Ray B. Humphrey, Supervisor of the Emery County Weed Control Committee, met with the Commission to report on the work done in 1951, and explained that although his department had over drawn the approved Budget for 1951, it was done with the approval of the Weed Committee and the Board of Emery County Commissioners, in order to obtain a good supply of necessary chemicals in order to carry on the program.

He also said that the new weed, Halogeten, had caused considerable more expense than was foreseen at the time the Budget was set up and approved. After some discussion it was decided unanimously by all members of the Commission and Mr. Humphrey, that Attorney, Bunderson, take any steps necessary to make the overdrawn Budget comply with the law.

STATE ROAD IMPROVEMENTS:

Mr. Patterson, the District Road Engineer, of Price, Utah, met with the Commission, and expressed himself that he would be willing at any time to help them with their Road problems, or in any way possible that he could. After discussing Emery County's most needed projects on the State Road improvements, it was agreed by all members and Mr. Patterson, that the Horseshoe Dugway between Huntington and Price, and the stretch of road south of Castle Dale to Ferron were the ones in most need of improvements. Clerk, Jewkes, was instructed to write a letter to the Utah State Road Commission, recommending that these projects be considered for improvement in the near future.

MRS. ANTONE NIELSON:

Mrs. Antone Nielson, of Huntington, Utah, asked the Board of Emery County Commissioners for relief on her taxes for 1951, in the amount of \$57.44. After chairman, Hatt, explained that no abatements were given any more, Commissioner, Killpack, proposed that Mrs. Nielson be given a contract for payment of said taxes in monthly payments. This begin agreeable with all Commission members and Mrs. Nielson, she was granted a contract. Said contract stating that down payment be \$35.00 and the payments of \$7.48 each on the 10th of each month be made.

DAVID H. PETERSON:

David H. Peterson, custodian of the Emery County Courthouse, met with the Commissioners, and asked that his salary as custodian be raised. Mr. Peterson was advised that owing to the fact that the present budget being in effect for two more months, nothing could be done at the present, but due consideration would be given his request for the coming year.

JUNE MINCHEY:

Mr. June Minchey of Cleveland, Utah, and Power Shovel operator for Emery County, conferred with the Board of Emery County Commissioners, regarding back pay of .25c per hour which he claims is due him according to a minute entry made in April of 1949. Mr. Minchey was told that having accepted the wage paid him all this time without asking for the additional .25c per hour, it would be out of order to comply with his request. He then said he felt that his present rate of pay should be raised an additional .25c per hour. The Commissioners promised to consider this request and advise Mr. Minchey of their decision by mail. After due consideration it was decided that Mr. Minchey be paid the same rate as other machine operators of county equipment, and Clerk, Jewkes was instructed to advise him of this fact, at the same time giving him the first chance to continue as operator.

Clerk, Jewkes was asked to write a letter to Mr. Beckstrand's Draft Board, telling of his road work in the county, etc; but not asking for his deferment.

COUNTY OFFICIALS:

The department heads of all offices of the Courthouse were called in and Chairman, Hatt, explained that all or nearly all, were in danger of over running the approved budgets for 1951. He said that the Commission members were in part responsible for this due to the fact that a raise in the deputy pay had been granted without consulting all department heads, also that some departments had exceeded their budgets due to this raise, and the fact that approved budgets were short of what they should have been, especially that of Assessor, Nelson. He asked that all cooperate and economize as much as possible for the balance of the year and stated that by so doing it was possible to stay within the approved budget of each office. Mr. Hatt then asked if any of the Department heads could or would make any suggestions for ways and means to help out. Mr. Rex Nelson, Assessor, suggested that some deputies had in the past been paid on Legal Holidays and that it would help some if this would be discontinued. Mr. Jewkes, Clerk, suggested that in the past extra hire had been paid a full days pay for three hours work on Saturday, and thought this should be discontinued, in order to cut expenses. He also asked each department head to hand in a detailed report of the expense of each individual office every month of the year, by so doing, every responsible person would know exactly how his expense account stands with the approved budget.

Mr. Nelson, Emery County Assessor, also said that everything pertaining to running the County's business depended on the cooperation of all the officials, and suggested that this be done in the future.

AID TO PROCURE A PHYSICIAN FOR EMERY COUNTY:

Mayors, Bennett of Huntington, Taylor of Orangeville, Behling of Castle Dale, and representatives of Town Boards from Emery, and Ferron; also Bishop Brasher of Huntington, met with the commission and asked the assistance and cooperation of the commissioners in helping to get one or more physicians for Emery County, because of the fact that due to the illness of Dr. Benjamin Turman, our County is entirely without the services of a practicing physician. Clerk, Jewkes was requested to write letters to Dr. George A. Spendlove, head of the State Health Board, and Governor, J. Bracken Lee, asking for their aid and influence in this matter. Herewith is a copy of letters sent to those parties:

Castle Dale, Utah
December 6, 1951

Governor J. Bracken Lee (Dr. George A. Spendlove)
State Capitol (State Health Department)
Salt Lake City, Utah (Salt Lake City, Utah)

Dear Governor: (Dear Dr. Spendlove:)

At a Regular Meeting of the Emery County Board of Commissioners, held November 29, 1951, all City Mayors, Presidents of Town Boards and Church officials of each and every City, Town and village within Emery County, met with the Commissioners and requested that letters be written to the Honorable Governor of our State, and also Dr. George A. Spendlove, Utah State Health Director, asking that they use their influence and give any possible aid in procuring for the people of Emery County, one or more medical Doctors.

The reasons for this request being:

At this writing and for considerable time past, the only practicing physician within Emery County has been seriously ill. It is very doubtful at this time if this good doctor will ever again be able to resume practice. The facts related above leaves the whole of Emery County without the services of a medical Doctor, and anyone needing medical care must journey to Price, Utah, which means driving a distance from 17 to 60 miles, or going without the necessary aid.

It is the general belief of the people of Emery County that the illness of our physician is due entirely to overwork, in trying to serve all of the County; therefore our request for more than one to replace him if more than one can possibly be obtained.

The people of Emery County consider the grave question of the possible outbreak of some contagious disease, without the services of a physician.

For these reasons and other which could be related, we the Commission of Emery County, representing the people therein, appeal to you of higher position for the aid we need in this situation.

We wish to inform you that in deference to, and with property respect for our recent practicing physician, Dr. Benjamin Turman, we tried to confer with him in order to get his approval of this action, but his condition would not permit us doing so. We further add that Dr. Turman did a wonderful job in caring for our sick and ill, and sincerely regret his ill health, but with circumstances as they are we feel justified in taking this action without his approval.

If there is any further action we can take to speed up getting this desired aid, we as the governing body of the County of Emery are ready and willing to do so.

This action was taken upon motion of member, George F. Young, seconded by member, Ray Killpack, and carried by a unanimous vote of all member; Hatt, Young, and Killpack, voting, Aye.

Respectfully submitted to Honorable, Governor J. Bracken Lee and Dr. George A. Spendlove, Director of State Health Department.

The Political Subdivision submits for the State Agency's approval this plan and agreement to become effective on the date hereinafter stated.

I. Definitions.

For purposes of this plan and agreement

(a) The term "employee" means an employee as defined in Section 210 (K) of the Social Security Act and shall include an officer.

(b) The term "services" includes all services performed by individuals as employees of the Political Subdivision, except:

(1) Any service performed by an employee in a position covered by a retirement system on the date this agreement is made applicable to his coverage group.

(2) Service performed by an employee which is employed to relieve him from unemployment.

(3) Service performed in a hospital, home, or other institution by an inmate thereof.

(6) Services of an emergency nature.

II Services covered.

This plan and agreement includes all services performed by individuals for the Political Subdivision excepting those services which are expressly excluded here from by listing in an appendix hereto.

III. Administration of the Plan

The Political Subdivision agrees and has heretofore authorized and directed the appropriate officers and employees to do and perform all things found necessary by the State Agency to the proper and efficient administration of the plan, including but not limited to the maintenance of employment records relating to both services and salaries, required contributions by both the political subdivision and its employees and other data required by the State Agency or the Federal Security Administrator, to make such reports in such form and containing such information as the State Agency may from time to time require, and to comply with such provisions as the State Agency or Federal Security Agency or Federal Security Administrator may from

time to time find necessary to assume the correctness and verification of such reports.

IV. Contributions.

(a) The Political Subdivision will pay into the Contribution Fund established by said State Act, with respect to wages as defined in Section 2 of said Act, at such time or times as the State Agency may by regulation prescribe, contributions equivalent to the sum of the taxes which would be imposed by Section 1400 and 1410 of the Internal Revenue Code if the services covered by this plan and agreement constituted employment as defined in Section 1426 of such code.

(b) The Political Subdivision agrees and contemplates that it shall impose upon each of its employees, as to services which are covered by this plan and agreement, a contribution with respect to his wages, not exceeding the amount of the tax which would be imposed by Section 1400 of the Federal Insurance Contributions Act if such services constituted employment within the meaning of that Act, and to deduct the amount of such contribution from his wages as and when paid. (c) Without prejudice to other available methods of collection, the State Agency in its discretion may deduct such delinquent amounts plus interest from any other money payable to the Political Subdivision by any department, agency or fund of the State, including but not limited to the City, Town and County Liquor Control Funds and Class "B" and Class "C" roads account.

VI. Termination.

(a) The Political Subdivision may request the State Agency to take all necessary steps with the Federal Security Administrator, pursuant to Section 218 (g) of the Social Security Act, to terminate this plan and agreement and the State-Federal Administrator Agreement executed pursuant to Section 3 of said State Act either in its entire application to the Political Subdivision or with respect to any coverage group. (b) If the State Agency, after notice and opportunity for hearing to the Political Subdivision, finds that there has been a failure to comply substantially with any provision contained in this plan and agreement and in said State Act. It may terminate this plan in its entirety, such termination to take effect at the expiration of such notice and on such conditions as may be provided by regulations of the State Agency and may be consistent with the provisions of the Social Security Act.

VII. Modification.

This plan and agreement may be modified, at the request of the Political Subdivision, to include coverage groups or services in addition to those now included by this plan. June 9, 1952

Minutes of the Meeting of the Emery County Board of Commissioners, also acting as the Emery County Board of Equalization for Emery County, held in the Greenriver City Hall at Greenriver, Utah, at 10 o'clock A.M.

Present were Commission Chairman, Frank J. Hatt; Member, George F. Young and Ray Killpack, Assessor, Rex Nelson and Clerk, David N. Jewkes.

MAYOR HOWARD SILLIMAN:

Mr. Howard Silliman, Mayor of Greenriver City, met with the Commissioners and advised them of the fact that owing to the high flood stage of the spring run-off of the Green River, considerable amount of valuable farm property and parts of Greenriver City itself were in grave danger of being heavily damaged, unless something could be done immediately to strengthen dikes and rip-rapping already done by the farmers and citizens of the vicinity. Mr. Silliman requested the Commissioners to go with him and see for themselves just how dangerous the situation was at the present time, and also stated that the river was still rising, due to warm weather. After looking over the points most endangered, the Commissioners tried to contact by telephone, officials of the flood control program of Utah; being unsuccessful, they tried to contact by telephone the Governor of the State, to see if funds for the purpose of Flood Control could be obtained in order to start work at once. Being unsuccessful in their attempts to contact any proper authorities, the Board of Commissioners of Emery County thereupon declared the situation to be a state of emergency and unanimously approved the allocation of \$500.00 for the immediate commencement of work on the project. This sum to be taken from the Water Conservation and Flood Control Fund of Emery County. Mayor, Silliman, promised that if any monies were allocated for the vicinity from other agencies, the above sum would be refunded to the County.

ERRONEOUS TAX SALE:

Mayor Silliman, also called the attention of the Board of Commissioners to the fact that a certain parcel of Real Estate which was advertised for sale at the annual Tax Sale on May 26, 1952, had been previously purchased by Greenriver City, and therefore had been erroneously advertised. The Clerk was requested to check with the County Recorder and examine the tax sale record and correct any error made.

KENNETH SILLIMAN:

Mr. Kenneth Silliman, of Greenriver, Utah, made known the fact that according to his 1951 tax notice he had paid taxes in excess of \$90.00 valuation. Clerk, Jewkes, promised Mr. Silliman that he would check the tax rolls for 1951 and if Mr. Silliman had overpaid he would be compensated by a refund.

There being no requests made for readjustment of valuations of property in the Greenriver district, which were justifiable according to Assessor, Nelson.

HOMER EDWARDS & KEITH ALBRECHT:

Mr. Edwards and Mr. Albrecht, members of the P.M.A. and Soil Conservation Service, called on the Commissioners, stating that the annual farmers tour date would be on July 17th, and extended the Commissioners and invitation to participate. A copy of the above mentioned letter, and a copy of the Quit-claim deed are as follows:

June 28, 1954

Board of County Commissioners
Castle Dale, Utah

Gentlemen:

Carl Nyman has just purchased the corner at the intersection of main street in Green River with the State Highway. He has purchased this corner property from C.C. Asimus and a portion thereof from Kisten E. Webb. He is going to construct a service station on this property, and it will be necessary for him to finance the construction with the Phillips Petroleum Company. The attorney for Phillips Petroleum has called to our attention a deed which appears at a Book A-6 at page 68. This was a County Deed to B.J. Silliman. The acknowledgement to this deed which was made by J.B. Jewkes was defective.

The abstractor pointed out "acknowledgement seems to not comply with Section 1538, 3rd subdiv. and Sec. 4889, Corporate acknowledgement, Compiled Laws of Utah, 1917."

Rather than to try to remedy this old deed I have suggested that we should obtain a quit claim deed from the County at this time. The quit claim deed should run to Carl Nyman of Price, Utah, and it should cover lot 5, Block 22, First Division of Green River, Utah. At your next meeting would you please consider this matter, and if you find the same to be in order, favor us with a quit claim deed from the County to this parcel of land.

Thank You.

Very truly yours,

/s/ T.N. Jensen

Mr. Leonard gave his point of view on the use of Federal Secondary Road monies, and also his opinion as to the roads within Emery County that the said Federal monies could be applied to and approved of by the Federal Road agencies. Clerk, Jewkes, was instructed by all Commission members to write the State Road Commission urging that body to oil the stretch of road West of Orangeville, now under construction, as soon as grading and graveling is completed, stressing the fact that if oiled soon after completion of grading, etc., a big savings would be made in the cost of the project.

IRVIN OLSEN:

Mr. Irvin Olsen, of Ferron, Utah, appeared before the Commission and made an offer to buy certain lots in Green River City, owned by Emery County by reason of the May Tax Sale of prior years. Owing to the fact that the Commissioners had promised sale of some lots in Green River to Mr. Nixon of Nixon Uranium Inc., Mr. Olsen was advised to appear at the next regular meeting on August 2nd so that the lost in question could be checked and with the thought that if said lots were not the same as those wanted by the Nixon Company, sale to Mr. Olsen could be approved, and if the lots proved to be the same, perhaps sale of the same could be divided satisfactorily between Mr. Nixon and Mr. Olsen.

BRADFORD A. JENSEN:

Mr. Bradford Jensen, of Ferron, Utah, appeared and requested that a culvert be installed at a certain point in Ferron, to carry waste water across a county road. On motion of Milton McElprang, seconded by Ray Killpack and a unanimous vote of all Commission members it was approved that Mr. Jensen's request be granted.

The above described tract of land contains 3123 acres, more or less.

After being advised by County Attorney, Bunderson, that the State Highway soon to be constructed, would cross some of the said land, certain parts of said land were wanted by the State Road Commission for right-of-way; the

County Commissioners unanimously agreed to accept Mr. Jensen's bid, providing those certain parts needed by the State Road Commission for right-of-way excluded from the original description of said real estate and a deed issued to the Utah State Road Commission for that or those parts needed for said right-of-way.

A copy of the Deed issued to the Utah State Road Commission is as follows:

Minutes of a special meeting of the Emery County Board of Commissioners, held in the Courthouse, at Castle Dale, Utah, at 10 o'clock A.M. Present were Chairman, Frank J. Hatt, member, Milton McElprang, Attorney, Mack V. Bunderson, Sheriff, Don B. Kofford, and Highway Patrolman, Lyle Hyatt. The purpose of the meeting being about the sale of Beer to minors by Mrs. Velma Anderson, of Huntington, Utah, a county licensed beer hall operator.

Mrs. Anderson and son, appeared and Attorney, Bunderson read to them the County Beer Ordinance, stressing particularly those parts pertaining the possible sale of beer to minors.

Sheriff, Kofford and Mr. Hyatt, gave testimony obtained from 3 minors who had been picked up by Mr. Hyatt after an automobile accident. Both officers testified that said minors were intoxicated and said intoxication was undoubtedly the cause of the accident. Proof of intoxication was presented in the form of Blood Tests, made to determine the alcoholic content. Sheriff, Kofford, testified that one of the minors admitted the purchase of a case of beer from the minor daughter of Mrs. Anderson at her place of business. Mrs. Anderson denied the sale of beer by her daughter but said the minor had left \$5.00 on the bar, picked a case of beer without anyone's permission and walked out. She also stated that she had proof of the above statements, that the beer had been stolen and not sold.

Due to Mrs. Anderson's statements it was unanimously decided by the Commissioners that the Sheriff interrogate the witnesses of the alleged theft of the beer and for Mrs. Anderson to appear at the Courthouse on September 20th at 10 o'clock A.M., the date set for the canvas of the votes cast by Emery County election districts at the Primary Election to be held on September 14, 1954.

SCHOOL TAX MONEY:

Attorney, Mack V. Bunderson, informed the Commission that Mr. Frye, Superintendent of the Emery County School District, wished to draw an advance of tax money due the schools from 1956 current tax collections. Mr. Frank Moffitt, the County Treasurer, being indisposed and in the Hospital, had been advised by Mr. Charles O. Butcherite, C.P.A. who yearly audits the books of Emery County, not to advance any more money to the School District, until he completed his audit. Neither Mr. Moffitt nor Mr. Butcherite, being present, Mr. Bunderson, quoted certain laws showing that the Schools were entitled to the advance of any tax money due them, therefore upon the recommendation of Mr. Bunderson, and on the motion of Clyde E. Conover, seconded by Milton McElprang, and the unanimous vote of all Commission members, it was approved that Deputy Treasurer, Velda J. Jensen, issue a check in the favor of said School District, in the amount of \$40,000.00. Said sum being well under the total amount due said School, according to the 1956 current tax collection entries on the books of the County Treasurer.

RUFUS WILBERG:

Mr. Rufus Wilber, of Castle Dale, Utah, appeared and made a bid of \$245.20 for certain real estate which was sold to Emery County at the May Tax Sale of 1955, under the name of Cloyd Fillmore, said real estate being described as follows: N ½ of NE ¼ SE ¼ of NE ¼; Lots 3 and 4; E ½ of SE ¼ all in Section 19, Township 18 South, Range 9 East, Salt Lake Base and Meridian.

Mr. Wilber's bid was unanimously approved by all Commission members, providing Mr. Wilberg agree that no oil and mineral rights be included in the County Deed issued to him. The said sum of \$245.20 to be credited as follows: To County Treasurer for taxes, interest, penalties and costs \$237.90. To Clerk for Deed \$6.00 and to County Recorder for recording fee \$1.30.

1957 BUDGETS APPROVED:

After careful study of all Budget Applications of the Department heads and consideration of the financial status of the several County Funds, including the adjusted 1956 budget, of the County General Fund, and 1956 expenditures, as shown herewith, on the motion of Clyde E. Conover, seconded by Milton McElprang and the unanimous vote of all Commission members, the 1957 Budgets were approved as shown under that column titled 1957 Approved Budget.
